

Tuesday the 13th day of September 19 27

County Commissioners Office,
Bozeman, Montana.

The Honorable Board of County Commissioners met at the above named office in extra session on Tuesday, the 13th day of September, A. D., 1927, at nine o'clock A. M.

Those present were the Honorable John H. Aajker, Chairman, Hon. F. L. Benepe, Jr., and Hon. Glenn Morgan, as Commissioners, and J. H. Harris, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

On motion, made, seconded and carried, the Board reappointed H. E. Plummer, Justice of the Peace, at West Yellowstone for the term to expire on the first Monday in January, 1929.

On motion made, seconded and carried, the Board allowed for transportation on County exhibits at the Midland Empire Fair not to exceed \$75.00.

Viewers' report on closing roads No. 552 and No. 553 was received as follows:

VIEWERS' REPORT ON ROAD PETITIONS NO. 552 AND NO. 553.

We, your viewers, appointed to view the locations of the roads proposed to be closed by Petitions #552 and #553 wish to report as follows:

- (1) That we have viewed the locations of the roads proposed to be closed.
- (2) That we make the following recommendations:-

That the road described in Petition #553 be closed and that the road described in Petition #552 remain open.

Our reasons are as follows:

The main purpose that either of these roads serve is as an outlet for the Ray Holloway farm. Mr. Holloway desires that the road described in Petition #552 be left open as it gives him an outlet on the gravel road much nearer Bozeman than the other road would provide. Furthermore, by closing the road described in Petition #553, the county could eliminate a large irrigation ditch culvert at the west end of said road, said culvert now being in bad condition, so that it will have to be replaced at considerable expense in case the road is left open.

Respectfully submitted,

S. D. Waldorf

Glenn Morgan

The Board entered into and signed a contract, copy of which follows, with the Madison Dike and Drain Company, whereby the County allowed them to use the drag line, inasmuch as it is of vital interest to the County in case of flood water in the spring or winter, which often prevails, causing the gorging of the river. The Yellowstone trail especially is in danger and there would be no way of detouring in that case since the lower Madison bridge has been removed.

Those present were the Hon. John H. Aakjer, Hon. F. L. Benepe, Jr. and Hon. Glenn Morgan, as Commissioners, and J. H. Harris, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

Commissioner Benepe reported that on October 18th, as per order of the Board, he and Attorney Bunker met with the Board of Equalization in Helena on behalf of the County on an appeal of the Yellowstone Park Transportation Company, relative to improvements and personal property in the two-mile strip on the northern boundary of Yellowstone Park.

Both Attorney Bunker for Gallatin County and Attorney T. B. Weir for the Transportation Company presented their sides of the case and the State Board of Equalization took the same under advisement.

On motion made and carried, the Board wrote to the State Highway Commission relative to constructing that portion of the Yellowstone trail east of Bozeman between Federal Aid Project No. 166 and No. 222, asking that a survey be made in the near future and that this road be constructed in 1928, if possible.

A petition was presented by residents and property owners in the vicinity of Gallatin Gateway asking that certain streets and alleys be vacated and a portion of the townsite be thrown into acres instead of lots.

On motion made and carried, the Board awarded the following bridge lumber contracts:

B. A. Clopton, 80,000 feet to be delivered in the yards at Bozeman at \$29.00 per M.
 B. A. Clopton, 5,000 feet to be delivered at the Don Christie ranch at \$27.00 per M.

On motion made and carried, the Board inspected the work of the grader crew and also inspected the proposed river change near the Axtell bridge. County Commissioners' Office,
Bozeman, Montana.

The Honorable Board of County Commissioners met at the above named office in extra session on Monday, the 24th day of October, A. D., 1927, at nine o'clock A. M.

Those present were the Hon. John H. Aakjer, Hon. F. L. Benepe, Jr. and Hon. Glenn Morgan, as Commissioners, and J. H. Harris, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

On motion made and carried, the Board approved the bond of B. A. Clopton, as principal, and J. W. Clopton and Mrs. John W. Clopton, as sureties, in the sum of Three Thousand Six Hundred Seventy (\$3670.00) Dollars.

A petition having been presented to this office, signed by the C. M. & St. P. Railroad, the Monarch Lumber Co., and others to vacate certain streets and alleys in the townsite ^{of Salesville} and to vacate a certain portion of the townsite plat in which these alleys and streets are located, on motion made and carried, the Board, together with County Attorney Bohart, went to Gallatin Gateway. (Salesville)

We found that the streets and alleys that were asked to be closed were not being used and could not be used without considerable alterations.

Attorney Bohart informed us that in his opinion we could legally grant that part of the petition asking to vacate the streets and alleys as per Section 5309 of the Political Code of Montana, but in his opinion that portion of the petition asking that certain lots be thrown into acres and assessed as such could not be granted as per Section 5308 of the Montana Political Code.

On motion made and carried, the Board granted that portion of the petition as to closing the streets and alleys and disallowed the balance of the petition.

The Clerk was ordered to notify all parties interested of the action of the Board.

A delegation from Lux siding consisting of Eugene Smith, W. E. Murray, W. O. Bohart, Albert Evans and Mr. Reed met the Board and asked that the County cooperate in graveling with pit-run gravel the road from the Lux siding east and south a distance of approximately one mile.

The Board informed them that the County was short of funds at this time, but if they would cooperate to the extent of furnishing all horses necessary in operating the grader and fresno in preparing the grade, that the County would pay for the men at the regular County wage scale.

They agreed to circulate a petition and report to this Board at a later date.

County Commissioners' Office,
Bozeman, Montana.

The Honorable Board of County Commissioners met at the above named office in extra session on Tuesday, the 1st day of November, A. D., 1927, at nine o'clock A. M.

Those present were the Hon. John H. Aakjer, Chairman, Hon. F. L. Benepe, Jr. and Hon. Glenn Morgan, as Commissioners, and J. H. Harris, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

A budget for the Farm Bureau and Extension Work having been presented to this Board, same was turned down for the reason that it asked for an increase in salary of the County Agent of Three Hundred (\$300.00) Dollars. But on motion made and carried, it was resolved that this Board would sign a budget if the salary of the County Agent would show for Three Thousand (\$3000.00) Dollars instead of Thirty-three Hundred (\$3300.00) Dollars, with the understanding that the County Agent would be permitted to draw an additional Three Hundred (\$300.00) Dollars, providing, first, that Gallatin County held the fairs during the term of this budget; second, providing that Mr. Bodley should be appointed and act as Manager of the Fair.

Our experience in the past shows that it is more profitable to Gallatin County to pay Mr. Bodley with his experience Three Hundred (\$300.00) Dollars additional salary while acting in the capacity of Chairman of the Fair Board than to hire a new man who would have to be paid considerable more money.

Commissioners Aakjer and Morgan voted "Yes" and Commissioner Benepe voted "No," for the following reason:

"I do not believe that the past salary, to-wit:-One Hundred Twenty-five (\$125.00) Dollars from the County and One Hundred Twenty-five (\$125.00) Dollars from the Federal and State, totaling Two Hundred Fifty (\$250.00) Dollars per month has been warranted as compared with other County officers, and the Three Hundred (\$300.00) Dollars additional referred to as payment for County Fair work is merely an increase in salary as asked for by members of the Farm Bureau of me from time to time during the past year for the County Agent."

A petition having been presented to this Board to close certain streets and alleys in the townsite of Salesville (Gallatin Gateway) and the same having been viewed on October 24th, on motion made and carried, the Board passed the following Order:

ORDER

The petition of Chicago, Milwaukee & St. Paul Railway Company and Monarch Lumber Company, corporations, authorized to hold real estate and transact business in the State of Montana, having heretofore filed with this Board, praying that that portion of the Townsite of Salesville comprising Block 7 and the northerly half of Block 11, together with all lots, streets, avenues and alleys therein and adjacent thereto, save and except Webb Street in said Townsite, be vacated, and the Board having the matter under consideration and being fully advised in the premises;

IT IS NOW ORDERED, That the streets and alleys in that portion of the said Townsite of Salesville comprising Block 7 and the northerly half of Block 11, as well as those portions of Bozeman Street and Bench Street within and adjacent to said Block 7 and the north half of Block 11 be, and the same is hereby vacated, save and except Webb Street, as shown upon the plat thereof filed with the petition herein, reference to which is hereby made, and thereupon the land included therein shall attach to and become part of the adjoining lots of said townsite and the title thereto pass with conveyance of said lots.

Reference is hereby made to Section 5309, Revised Code 1921.

W. M. Ferguson met the Board and stated that he was sick and destitute. On investigation it was found that Mr. Ferguson was eligible to an Old Age Pension. He was

Tuesday the 1st day of November 19²⁷

asked to sign the application for an Old Age Pension and he was also given a choice to take Fifteen (\$15.00) Dollars per month, or be admitted to the Poor Farm. He chose to be taken to the Poor Farm at this time.

The Board adjourned at five o'clock P. M.

County Commissioners' Office, Bozeman, Montana.

The Honorable Board of County Commissioners met at the above named office in extra session on Wednesday, the 2nd day of November, A. D., 1927, at nine o'clock A. M.

Those present were the Hon. John H. Aakjer, Chairman, Hon. F. L. Benepe, Jr. and Hon. Glenn Morgan, as Commissioners, and J. H. Harris, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

Mr. W. M. Ferguson, having been admitted to the Poor Farm, was taken sick and asked that his allowance be changed and that he be allowed the Old Age Pension in the sum of Fifteen (\$15.00) per month as we had agreed instead of staying at the Poor Farm.

On motion made and carried, the same was granted.

Wm. E. Breeden met the Board and asked the County to sell the property described in Sale No. 1 of the attached Notice of Sale.

Mrs. Jim Smith also met the Board and asked the County to sell the property described in Sale No. 2 of the attached Notice of Sale. The Board passed the Resolution attached below: The Clerk was ordered to post Notices of Sale on both pieces of property, said sale to be held on December 6, 1927 at ten o'clock A. M.

On motion made and carried, the Board and Surveyor Waldorf, on report that the Bear Creek road was in bad shape, inspected the same and ordered William Dore to make the necessary improvements.

We also inspected the Kelly Canyon road.

Fred Owens met the Board and stated that the bridge across Bridger Creek leading to his house was in bad condition. He was informed that the Board previously agreed to furnish material for this bridge. Inasmuch as this was a County road, the Board decided it would be better to furnish material than same made a County road as had been previously petitioned.

Mr. Owens stated that he would furnish the stringers and assist in building if the County would furnish the planks and supervise the work which we agreed.

The Board adjourned at five o'clock P. M.

BOARD OF COUNTY COMMISSIONERS By John Aakjer, Chairman

The Honorable Board of County Commissioners met at the above named office in extra session on Wednesday, the 2nd day of November, A. D., 1927, at nine o'clock A. M.

Minutes of the previous meeting were read and approved:

On motion made and carried, the same was granted.

Wm. E. Breeden met the Board and asked the County to sell the property described in Sale No. 1 of the attached Notice of Sale.

Mrs. Jim Smith also met the Board and asked the County to sell the property described in Sale No. 2 of the attached Notice of Sale.

The Board passed the Resolution attached below:
The Clerk was ordered to post Notices of Sale on both pieces of property, said sale to be held on December 6, 1927 at ten o'clock A. M.

On motion made and carried, the Board and Surveyor Waldorf, on report that the Bear Creek road was in bad shape, inspected the same and ordered William Dore to make the necessary improvements.

We also inspected the Kelly Canyon road.

Fred Owens met the Board and stated that the bridge across Bridger Creek on the road leading to his house was in bad condition. He was informed that the Board had previously agreed to furnish material for this bridge. Inasmuch as this was not on a County road, the Board decided it would be better to furnish material than to have same made a County road as had been previously petitioned.

Mr. Owens stated that he would furnish the stringers and assist in building the bridge if the County would furnish the planks and supervise the work which we agreed to do.

The Board adjourned at five o'clock P. M.

REPORT OF VIEWERS ON ROAD PETITION #557

We, your viewers, appointed for Road Petition No. 557, wish to report as follows:

- (1) We viewed the location of the proposed road on November 2, 1927.
- (2) We find that the main reason for the demand for this road appears to be that its establishment would provide a short route to and from school for several families.
- (3) We find that this proposed road would require expensive construction, as a substantial bridge would have to be constructed over Bear Creek, and at least $\frac{1}{2}$ mile of the road would be on swampy ground, requiring drag line construction.
- (4) We recommend that this petition be denied for the reason that the high cost of construction is not justified at this time by the amount of traffic to be served.

Respectfully submitted,

The Honorable Board of County Commissioners met at the above named office in regular session on Wednesday, the 9th day of November, A. D., 1927, at nine o'clock A.M.

Those present were the Hon. John H. Aakjer, Chairman, Hon. F. L. Benepe, Jr. and Hon. Glenn Morgan, as Commissioners, and J. H. Harris, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

Various claims were presented by the Clerk, and after due consideration, warrants were ordered drawn in payment of same.

The Board approved Road Supervisor's bond of Walter Collins, as principal, and Frank Collins and Roy E. Cole, as sureties, in the sum of Five Hundred (\$500.00) Dollars.

Time having arrived for the hearing on an Appeal of Frank Morgan, Harry Brainard and C. A. Scheytt from the County Superintendent's decision on a Petition in which it was asked to create a new District No. 34 out of School District No. 21, the Board, together with County Attorney Bohart, checked the proceedings of all the papers and found the same to be in regular form.

After considerable discussion and hearing from both sides, on motion made and carried, the Board sustained the decision of the County Superintendent, thus creating District No. 34 as petitioned.

The Clerk was ordered to notify all necessary parties.

Mr. Forrest, the Forestry Engineer of the West Gallatin road project, having called this Board asking for our decision on the change in the road at Hell Roaring Creek, Mr. Forrest was called by phone and notified that in a recent decision of the Supreme Court it was held that the County could not buy a right-of-way for a change in a road unless a Petition had been circulated. He was told that if the residents of Road District No. 17 would circulate a Petition, the same would be considered by this Board.

Joe Elings met the Board and stated that he preferred contracting a bridge and a fill in his district, rather than working by the day at this time of the year as the days would be short and part of the time he could only put in a fraction of a day.

On motion made and carried, Joe Elings was awarded a contract to put in a bridge on the new road on Rick Scudder's ranch for the sum of Ten (\$10.00) Dollars per M., and nails and lumber to be delivered on the ground, and Twenty (\$.20) Cents per yard for making the fill.

County Surveyor Waldorf called our attention to the fact that the bridge across Jefferson River near the old town of Three Forks was in need of paint and especially that portion on the Broadwater side. The Board called the attention of County Commissioners of Broadwater County to the fact that this was a joint bridge of Gallatin and Broadwater County and that the half on the Gallatin side had been painted several years ago and asked the Board of County Commissioners of Broadwater County at their earliest convenience to meet with this Board in the vicinity of Three Forks sometime early in December in order to decide what to do if anything.

The Honorable Board of County Commissioners met at the above named office in extra session on Wednesday, the 16th day of November, A. D., 1927, at nine o'clock A. M.

Those present were the Hon. John H. Aakjer, Chairman, Hon. F. L. Benepe, Jr. and Hon. Glenn Morgan, as Commissioners, and J. H. Harris, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

On motion made and carried, the Board, together with Surveyor Waldorf, met Supervisor Lane at the Jefferson slough bridge relative to reenforcing the rip-rap which had been badly damaged by high water in the spring of 1927. After investigating the cause of the high water, it was found that if a short distance up this branch of the river a crib be placed across this channel the water could be diverted into the main channel of the river, which, in our opinion, would eliminate further damage to the grade at the Jefferson slough bridge.

Supervisor Lane was ordered to proceed in placing the crib and the necessary rip-rap.

This work being on the property of the Adams Realty Co., the matter was taken up with the Manager, Jim Biffert, at Three Forks relative to procuring the necessary trees for cribbing which he assured us he would take up with the Company as soon as possible.

The Board inspected several of the county buildings in Three Forks now occupied by various families. It was found that a number of the occupants had not paid rent for some time.

On motion made and carried, it was decided to turn the collection of the rent over to some reliable party and pay them a reasonable commission for the collection of same.

The Board inspected the graveled road from Manhattan south, hence east to Belgrade, and found same had been rutted considerably and ordered Surveyor Waldorf to have this road graded.

December 5, 1927.

State Highway Commission,
Helena, Montana.

Gentlemen:

When our Mr. Benepe was in Helena the middle of October he reported that he had had a long talk with your Mr. Rader regarding the possibility of the project west of F. A. P. #166 and while in our former letters we have asked that this be to F. A. P. #222, Mr. Benepe and Mr. Rader thought that this could be amended to come only to the curve above the railroad crossing. This would eliminate the costly end of the project, to-wit--the big fill and overhead crossing, and we respectfully ask if you could not now allow this as amended for your 1928 program. This stretch of road is now the worst part of the Yellowstone trail in our County.

Trusting to hear favorably from you and thanking you for your many past favors, we are

Respectfully,

BOARD OF COUNTY COMMISSIONERS,

Mrs. Russie Gillingham,
Three Forks, Montana.

Dear Madam:

On October 23, 1923 this Board sold the condemned building off of the property formerly owned by you, known as the Pioneer pool hall, in Three Forks, to Jack Brown for the sum of \$125.00 with the understanding that this amount would be held by the County, same to be applied to your credit, providing that you redeemed said property. This money has been held now for over four years and this Board feels that the time of option should expire. Therefore, unless you redeem this property by January 1, 1928, we will deem this option null and void.

Yours very truly,

Mrs. William Powers stated that she had a eleven-year old girl, Miss Frances Billman, at her place, whom she had been keeping for several weeks, her father, William Billman, being destitute and not able to pay for her keep. She stated that an aunt in Oklahoma would send for this girl in about two weeks and asked that the County reimburse her for the keep from now until she would be able to leave at the rate of Five (\$5.00) Dollars per week. This, the Board agreed to do.

Time having arrived for the hearing on Petition No. 551 for closing a portion of the Kelly Canyon road and Petition No. 550 which was to open a certain road from the Kelly Canyon road across to P. A. P. #222.

Mr. Collins of that road district, Mrs. Alma Smith who owns property in said district, and Mr. Vaughn, representing the Montana State College, met the Board and protested against the road on Petition 551 being closed, stating that this would discommode them and two other parties in that vicinity.

On motion made and carried, the Board decided to disallow Petitions No. 551 and 550.

The Board had previously offered to furnish material for a bridge across Kelly Creek at the Huhnerkoch ranch and also flooring for a bridge across Rocky Creek on the new proposed road. The Board decided that this offer would still be in effect.

The Three Forks Hospital called this Board by phone in answer to a letter from this Board relative to rates for County patients in their institution and stated that they would make a rate of Two and 50/100 (\$2.50) Dollars per day from now on.

The Board allowed aid to various poor.

The Honorable Board of County Commissioners met at the above named office in regular session on Thursday, the 8th day of December, A. D., 1927 at nine o'clock A. M.

Those present were the Hon. John H. Aakjer, Chairman, Hon. F. L. Benepe, Jr., and Hon. Glenn Morgan, as Commissioners, and J. H. Harris, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

Various claims were presented by the Clerk and after due consideration warrants were ordered drawn in payment of same.

County Commissioners Smith and Schindahl of Broadwater County met the Board relative to a joint bridge across the Jefferson River north of Three Forks, which was badly in need of paint and other repairs. They stated that if Gallatin County would call for bids for said work on this bridge, we could bill them for their share. This was agreeable to this Board.

We also discussed various practices of each County which was appreciated by this Board.

The following report was received from Health Officer Jump:

Bozeman, Montana,
Dec. 1, 1927.

To the honorable Board of Co. Commissioners,
Gallatin Co., Montana.

Gentlemen:

During the year ending Nov. 30, 1927, the following contagious diseases were reported:

Smallpox	32
Measles	3
Scarlet fever	27
Chickenpox	8
Cerebro-spinal meningitis	1
Typhoid fever	4
Diphtheria	1
Total	76

The mildness of the small pox was a cause of the apparent large number of cases, people arguing that they would rather have the mild disease than be vaccinated. The scarlet fever was also of a mild type, which is most difficult to eradicate.

The inspections of places licensed under the Montana Food and Drugs Act were made more or less regularly as conditions warranted and the sanitary conditions found were generally good.

Having the Deputy Sheriff at West Yellowstone act as a Deputy Health Officer helped the sanitary conditions there.

Respectfully submitted,

C. F. Jump, Health Officer.

Same was approved and a copy of said report was sent to the State Board of Health.

Mr. Taylor, County Treasurer, presented an agreement with the Manhattan State Bank covering a registered warrant of School District No. 3, Gallatin County, in the sum of Two Thousand Four Hundred Sixty-seven and 98/100 (\$2467.98) Dollars as security for County deposits in said bank.

Same was approved.

Thursday the 8th day of December 19 27

U. S. Marshall Packer served a subpoena on this Board by exhibiting the original subpoena and leaving with us a copy of the subpoena and a copy of the Bill of Complaint for Injunction to Restrain the County Commissioners and others from collecting a tax on the property located in what is commonly known as the north strip and the west strip of The Yellowstone National Park located within Montana and what this County claims to be within the County of Gallatin for taxation purposes.

Mr. Vern Miller having presented his resignation as Road Supervisor in District No. 3, on motion made and carried, Joe Parsons was appointed supervisor to fill the vacancy.

The following letter was received from the State Highway Commission:

December 9, 1927

Board of County Commissioners,
Gallatin County,
Bozeman, Montana.

Gentlemen:

You are advised, at the meeting of December 7, the Commission decided to include in the 1928 construction program the construction of about three miles on the road west of Project 108 in Gallatin County. This is in conformity with the request made by the County Commissioners under date of December 5.

The Commission had quite a problem in attempting to find sufficient funds for this project next year, but decided to reduce the length of other projects in District 10 sufficiently to enable this badly needed construction on the Yellowstone Trail. We presume that this action will be entirely satisfactory.

Yours very truly,

Letters were sent to various bidders on wood to be used at the County Poor Farm and County Shop, same to be opened on December 21, 1927 at two o'clock P. M.

On motion made and carried, the Board ordered the road, starting at a point near the scale site near Mrs. Peters' house on the Mt. Ellis road, closed; hence in an easterly direction to a point where F. A. P. #222 crosses the old Yellowstone Trail at the west end of Rocky Canyon. The Honorable Board of County Commissioners met at the above named office in regular session on Monday, the 12th day of December, A. D., 1927 at nine o'clock A. M.

Those present were the Hon. John H. Bakjer, Chairman, Hon. F. L. Benepe, Jr., and Hon. Glenn Morgan, as Commissioners, and J. W. Harris, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

Various claims were presented by the Clerk and after due consideration warrants were ordered drawn in payment of same.

George E. Porter met the Board and stated that he was destitute and out of funds. After investigation, Mr. Porter was allowed Five (\$5.00) Dollars temporary aid and Seven and 50/100 (\$7.50) Dollars per month aid from now on.

On motion made and carried, the Board, together with Surveyor Waldorf, went to Three Forks and viewed the property belonging to Mrs. Haskell just across the Jefferson River in Broadwater County, they having reported to this Board that if a channel change was made in the Jefferson River as proposed about one-quarter mile above the bridge, that it would throw an excess amount of water in the main channel and thus flood their property in the winter time.

The Board, together with the owners, inspected this property and it was decided to alter our plans by putting in a shorter crib and rip-rap the banks of the river where the same was about to cut into the road grade near the bridge. By these plans we found that the excess amount of water would not raise the old channel enough to do any damage but would divert the main stream in case of high water.

The Surveyor was ordered to locate rock and start work according to these plans.

Mrs. Ella Ford and children met the Board at our request. Mrs. Ford and family have been a County charge for a number of years and after investigation it was decided to continue to give aid to them.

The Board adjourned at five o'clock P. M.

The Board admitted Harvey Walker to the County Poor Farm temporarily.

Thomas Bryant was allowed transportation to Townsend, Montana, he being destitute and unable to pay his way.

Wilfred Dale met the Board and stated that he was out of fuel and their Fifteen (\$15.00) Dollars allowance was not sufficient to take care of that. The Board allowed Mr. Dale one ton of coal.

Mrs. Joe Sullivan of Belgrade asked the County to pay the hospital bill for Mr. Sullivan. The matter was taken up with County Physician Jump. Dr. Jump stated that he thought it would be necessary to keep Mr. Sullivan at the hospital for a few days in order that an examination might be made. Same was allowed.

Mrs. W. J. Harrison met the Board and asked that the County allow her the rent for the Clint Clark family. She stated that he was five months in arrears for the rent. The Board informed her that they would pay the rent from December 1, 1927 at the rate of Ten (\$10.00) Dollars per month.

Mrs. Watt and family of seven children met the Board at our request, the County having taken care of this family for several years. It was found that only four of these children were under sixteen years of age. The County had been allowing them Fifty (\$50.00) Dollars per month. Mrs. Watt was asked if she thought she could get along with Forty (\$40.00) Dollars a month from now on and she stated that she would try. Her allowance was approved in the sum of Forty (\$40.00) Dollars per month.

A committee representing various Chambers of Commerce and road committees met the Board and discussed the Jefferson Canyon road. Various routes were discussed pro and con and after considerable discussion it was decided that the Commissioners write the following letter to the State Highway Commission:

December 19, 1927

State Highway Commission,
Helena, Montana.

Gentlemen:

At a joint meeting held at our office this morning, at which were present, besides the members of our Board, representatives of the various road committees of the County, the subject of the road between Three Forks and Whitehall was considered.

So far as our Board is concerned, we consider this road a very important highway, which should be constructed without

Monday the 19th day of December 19 27

further delay. It is not only an important section of the trunk line through the State, but it has a considerable value to the west end of Gallatin County in affording means of transportation for their products to Butte and points between.

So far as the location is concerned, we appreciate that your Board must make a determination on that subject after a careful consideration of the two proposed routes. We do urge, however, that the right route be chosen, regardless of the first cost, as the traffic is heavy on this road, and will rapidly and constantly increase when it is put in condition for all year travel. A route which will permit of all year travel is important also, as the element of drifting snow in the winter time must be considered.

It is the opinion of the members of our Board, as well as the opinion of the others who attended the meeting, that the best route, all things considered, is the Jefferson Canyon route, and that the difference in first cost would be more than compensated by the saving in distance and the greater utility of that route.

We respectfully submit to you this expression on our part for your consideration, with confidence that your Board will thoroughly canvass the situation, and arrive at a conclusion which will best serve the interests of all concerned, but, as stated above, we do urge that a decision be reached, and that work upon this road commence during the coming season.

Very respectfully yours,

BOARD OF COUNTY COMMISSIONERS,

John H. Aakjer
F. L. Benepe, Jr.
Glenn Morgan

On motion made and carried, the following regulations governing Petitions from Voluntary Improvement Districts were adopted:

REGULATIONS GOVERNING PETITIONS FROM VOLUNTARY IMPROVEMENT DISTRICTS FOR CRUSHED

GRAVEL SURFACED ROADS EFFECTIVE JANUARY 5, 1928.

General

Contracts between the County and Voluntary Improvement Districts established by the acceptance of Voluntary Improvement District Petitions will provide (1) that the County will construct the sub-grade, provide all drainage structures except as hereinafter otherwise provided, and surface the road with crushed gravel, and (2) that the district will furnish all additional or new right-of-way required by the County, all gravel pits required, and make a substantial cash contribution to help defray the expense of surfacing operations, said cash contribution to be at least sufficient to defray the cost of hauling the crushed gravel from the crushing plant to the roadway to be surfaced.

1. Petitions will be accepted only when they propose the improvement of sections of road that in the opinion of the County Commissioners are of primary importance to the County.
2. Sections of road covered by the various petitions will be constructed in the order that the County Commissioners may deem best for the interest of the County as a whole, and in all cases this order will be arranged so that new construction will always connect with existing surfaced State or County roads or City or Town systems.
3. All additional or new rights-of-way that may be required by the County, including all fencing, must be furnished by the District before a petition can be accepted and filed.
4. The gravel pit or gravel pits required for surfacing materials must be furnished by the district, tested and approved by the County, before a petition can be accepted and filed.

Thursday

the

5th

day of

January

5. Each member of the district must sign the petition and must state opposite his name the amount of cash he subscribes toward the construction of the surfacing. The County will require that all of this cash be deposited with the County Treasurer before advertising for bids on surfacing gravel, and will give the members of the district at least ten days notice of the date on which deposits must be made. The total amount of cash subscribed on any petition must be approved before the petition can be accepted and filed.

6. Drainage culverts will be placed by the County at farm crossings along the road to be improved only when such crossings exist before construction begins and are deemed necessary by the County, provided, however, that no more than one farm crossing for each half-mile of frontage on the road will be constructed for any one farm; and provided, further, that in case a section of the road is constructed on a new right-of-way, the county will provide drainage structures for farm crossings on the basis of one for each half-mile of frontage of each farm.

On motion made and carried, the Board will accept petitions under above regulations until further orders.

RESOLUTION

IT IS RESOLVED by the Board of County Commissioners of Gallatin County, Montana, that it is for the best interest of said County to sell at public auction at the Court House in Bozeman, Montana, after thirty days previous notice given by publication in the Republican Courier, a newspaper published in said County, and to convey to the highest bidder for cash the following described premises situated in Gallatin County, Montana, to-wit:

Lot Fourteen (14), Block Thirty-five (35)
Original Plat, Manhattan, Gallatin County,
Montana. Appraised value One Hundred
Fifty-three and 41/100 (\$153.41) Dollars;

And to pay the proceeds of such sale into the County Treasury for the use of said County, and John H. Aakjer, Chairman of the Board of County Commissioners, and J. H. Harris, County Clerk, are hereby directed and authorized to make, execute and deliver for and in behalf of said Gallatin County as its act and deed, the conveyance of said property and to affix to said conveyance the corporate name and seal of said Gallatin County.

The following letter was received from Nelson Story through his Attorney, Justin M. Smith:

January 6th, 1928.

Story-Gallatin County

To the Honorable The Board of
County Commissioners,
County of Gallatin,
Bozeman, Montana.

Sirs:

Pursuant to Contract and letter Nelson Story, Jr., dated June 17, 1924,

Monday the 9th day of January 19 28

in re right of way for highway built in Gallatin County by Bureau of Forest Highway which Contract and letter is recorded in the office of the County Clerk and Recorder of the County of Gallatin in Book "10" of Miscellaneous Records, page 320, in behalf of Mr. Story, I am herewith delivering to the Board of County Commissioners a deed for the right of way through sections 17, 20, 21 and 28, Township 9 South, Range 5 East. This deed comprehends right of way for highway which is part of the West Gallatin Park Boundary Section, National Forest Road, Gallatin National Forest, constructed by the United States Department of Agriculture, Bureau of Public Roads.

In preparing the descriptions for this right of way, I have had the assistance of the office of the County Surveyor, particularly Mr. Moore. The deed therefore has been submitted to him, and I have his approval as to the descriptions.

Whether or not there is any other deed necessary for any right of way through any lands owned by Mr. Story, I do not know. If there is, he will be ready and willing to execute the same when advised.

In this connection you are aware that the road on the other side of the river through these sections has been abandoned, and in some instances, particularly with reference to the Ed C. Alderson place, Alderson had deeded to the County of Gallatin right of way for highway. In view of the fact that Mr. Story has given this deed without compensation, we think it is only proper that the Board of County Commissioners should reconvey to him any land that has been conveyed to the County by deed for highway purposes, and which is now owned by Mr. Story. There is at least one that I refer to--that of Ed C. Alderson, and this matter I will take up with you later. There may be others, but I cannot tell until the abstracts of title are continued and brought down to date.

Very respectfully,

JMS/BR

Justin M. Smith

On motion made and carried, the Board agreed to give a like deed to Story for the old road through the property above mentioned as the Alderson place in lieu of the road right-of-way given by Story through the Alderson place for the road built by the Forestry Department.

The Board adjourned at five o'clock P. M.

Commissioner Benepe and Surveyor Waldorf, viewers on Road Petition No. 562, turned in the following report:

VIEWERS' REPORT ON ROAD PETITION No. 562.

We, the undersigned viewers, appointed for Petition No. 562, wish to report as follows:

(1) That we viewed the location of the proposed road on January 11th, 1928;

(2) That we find that the proposed change would be a great benefit to all people travelling the Dry Creek Road, as it would eliminate the bad hill on the present road just north of the Tribble place;

(3) That in our opinion the best route to be followed on the new road is Route #1, which would lie to the north of the Dry Creek Irrigation Company's Ditch; a second Route #2 proposed crosses the above ditch at two points and would be in our opinion not as good as the first route, but a great improvement over the present road;

(4) That it appears that the right-of-way on the Route #2 above described is easily obtainable, but that the right-of-way for the Route #1 could be obtained only by condemnation proceedings;

(5) That we recommend that the above road be constructed in 1928 on one of the two routes described in Section 3 with the understanding that if Route #2 is used a right-of-way 60 feet in width and all fencing be furnished free of cost to Gallatin County, and with the understanding that if Route #1 is used a right-of-way 60 feet in width and all fencing be furnished free of cost to Gallatin County with the exception that the County pay toward said right-of-way and fencing cost an amount to be determined by the Board of Commissioners, said amount not to exceed the saving in construction cost made by using Route 1 instead of Route 2.

Those present were Hon. John H. Aakjer, Chairman, Hon. F. L. Benepe, Jr., and Hon. Glenn Morgan, as Commissioners, and J. H. Harris, Clerk and Recorder, as Clerk to the Board.

Minutes of the previous meeting were read and approved.

Because of a recent decision of the U. S. Supreme Court reversing the opinion of the Montana Supreme Court in the case of the Commercial National Bank of Miles City vs. Custer County and the Commercial National Bank of Bozeman, Montana having paid taxes on stock under protest and asked that they be refunded the difference between the taxes on 40% and 7%, the following letter was written to County Attorney Bohart; Mr. Cox having appeared before this Board and presented verified figures from four companies as follows: Waite-Parkin, \$164,500.00; Gallatin Abstract Co., \$115,000.00; Buell & Hines, \$147,350.00; Pioneer Building & Loan Association, \$28,500.00; this money being in competition with the local bank.

Mr. S. F. Bohart,
County Attorney,
Bozeman, Mont.

January 23, 1928.

Dear Sir:

In regard to taxation on National Banks which we have heretofore taxed at 40%, the Commercial National Bank of this city paid one-half the taxes under protest and are now asking that we refund the difference between 40% and 7% for the 1927 taxes, basing their claim on the recent decision of the U. S. Supreme Court reversing the Montana State Supreme Court in the case of the Commercial National Bank of Miles City et al. vs. Custer County.

Please give us your written opinion in the matter.

Respectfully,

BOARD OF COUNTY COMMISSIONERS,

By John H. Aakjer, Chairman.

The following opinion was given by County Attorney Bohart:

January 23, 1928.

Board of County Commissioners,
Gallatin County, Montana

Gentlemen:

You have requested my opinion regarding the taxation of National Banks, and you have specifically pointed out the case of the Commercial National Bank of this city, which paid 1927 taxes, under protest, and are now asking that they be refunded the difference between 40% and 7% of said taxes for the year 1927, and basing their claim upon the recent decision of the United States Supreme Court, reversing the Montana State Supreme Court in the case of the Commercial National Bank of Miles City et al. vs. Custer County.

The Court has stated that the statutes involved were not invalid, but simply that the tax was invalid and laid down the principle that in order to invalidate the tax, it was not sufficient to show that there was discrimination against the shares of stock of a National Bank and in favor of moneyed capital, but it must also be shown that the moneyed capital thus favored is employed in substantial competition with the business of the National Bank and competing in the same vicinity where the bank is engaged in business.

The Attorney General has been asked for an opinion by the State Board of Equalization and he has stated that each case in his opinion, depends upon its own facts and circumstances, and that in every case before, a National Bank may be heard to assert that it is unlawfully discriminated against by our taxing statutes.

Monday

the

23rd

day of

January

19 28

It must be able to show that moneyed capital assessed at only 7% of its value comes into substantial competition with the bank's business, and that the evidence must be directed to the condition prevailing in the locality in which the complainant bank is doing business. But, that shares of stock of all National Banks should be assessed on the basis of 40% of their value as heretofore; but that each bank has the right to pay under protest all of its tax in excess of what it would have been, if taxed on the basis of 7% of the value of its shares, and that if it is able to show that other moneyed capital substantial in amount when compared with the capitalization of the National Bank is employed in competition with a bank in the same locality, in which the bank does business, that, then it will be able to recover such excess, but otherwise not.

You have placed before me the case of Commercial National Bank of this city, whose capitalization is \$150,000.00. You have also placed before me the figures of four companies who loaned money in direct competition with National Banks and in the vicinity of Bozeman. The total of these four amount to \$455,350.00 for the year 1927, which is quite apparent as being a substantial amount when compared with the capitalization of said Commercial National Bank. I understand that there are several other companies making similar loans, but for which I do not have the exact figures.

Under these facts as above stated and in view of the United States Supreme Court Decision in the case of the Commercial National Bank of Miles City vs. Custer County, and in view of the Attorney General's opinion to the State Board of Equalization on December 23rd, it is my opinion that the Commercial National Bank has shown that moneyed capital is being employed in substantial competition with the said bank in this immediate vicinity. And, since the Commercial National Bank has paid its taxes under protest, that the Commercial National Bank is entitled to a return of the difference between the amount that it has paid on an assessment of 40% and what it would have paid on an assessment of 7%.

SFB/b

Respectfully submitted,

Seth F. Bohart

On motion made and carried, it was decided to refund to the Commercial National Bank of Bozeman, Montana the difference between 40% and 7%. The County Treasurer was so notified.

On motion made and carried, the Board, together with Mr. Culp of the State Highway Commission and County Surveyor Waldorf, went to Three Forks to inspect ice conditions. We found that considerable water was running across the Yellowstone trail which would endanger the traffic on this road.

We also inspected work by Sam Lane on the crib in the Jefferson River and found same progressing satisfactorily.

The Honorable Board of County Commissioners met at the above named office in extra session on Monday, the 9th day of April, A. D., 1928, at nine o'clock A. M.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

Surveyor Waldorf reported that on April 5th he inspected the bad road reported by Mrs. Hale two and one-half miles northwest of Belgrade and found the same in a passable condition. After interviewing Mr. Hale, he stated that when V. I. D. #15 was graveled that if the County would crush the gravel that he would haul the same to fill one mudhole in front of his place which would make the road in good condition.

On motion made and carried, the Board, together with Surveyor Waldorf, went to Three Forks and inspected the work on the crib at the Jefferson river with Supervisor Lane and laid out additional work.

Also inspected work at the shop and the work of the grader crew. Ordered the new grader crew to proceed to the Jack Rabbit road and laid out work for them.

Also inspected the work done by Supervisor George Taylor and laid out work for him.

Also inspected the two main roads in the Madison Valley and found same in fair condition with the exception of a few spots. Ordered Supervisor Weaver to proceed to make fills wherever necessary. It was decided not to send the grader crew into the valley at this time inasmuch as it was needed more in other parts of the County.

Treasurer Taylor reported he had received for the Sinking Fund investment bonds purchased from Raymond Beck, representing Halsey, Stuart & Co., as per agreement with Mr. Beck on January 30th, said bonds covering City of Oklahoma dated February 1, 1928, due February 1, 1935, as follows:

Same to be under the direction of surveyor Waldorf.

The Board signed an agreement with the Forestry Department relative to an additional \$500.00 to be paid by Gallatin County for the change in the West Gallatin project at Hell Roaring Creek. Same was forwarded to J. A. Elliott, Highway Engineer, Portland, Oregon.

William Buttleman met the Board in regard to damages on his ranch just west of Manhattan caused by flood water running along the County road for a distance of about one-half mile thus causing an excess amount of water in a draw which washed away part of the County road and about 60 feet of the railroad grade, covering his land with silt and causing some washouts.

He stated that in his opinion this damage was not all caused by Gallatin County but that if Gallatin County had proper drainage on the above mentioned road and if the drainage through the N. P. road was sufficient to take care of the excess water that his damage would not have happened.

He was informed that we would take the matter up with the N. P. Railway Company and cooperate with them to take care of the excess water.

County Agent Bodley asked the County to cooperate with the Rod and Gun Clubs of the County to the amount of Twenty-five (\$25.00) Dollars to pay prizes for the extermination of rodents.

On motion made and carried, the Board agreed to pay the sum of Twenty-five (\$25.00) Dollars for that purpose.

The Clerk was ordered to post notices for an extra session beginning Monday, the 23rd of April, 1928, not to exceed three days.

The Board adjourned at five o'clock P. M.

The Honorable Board of County Commissioners met at the above named office in extra session on Monday, the 30th day of April, A. D., 1928, at nine o'clock A. M.

Those present were Hon. John H. Aakjer, Chairman, Hon. F. L. Benepe, Jr., and Hon. Glenn Morgan, as Commissioners, and J. H. Harris, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

On motion made and carried, the Board, together with Surveyor Waldorf, went to the Madison County line on the upper Madison and interviewed County Commissioner Bert Maynard of Madison County relative to a joint road in that vicinity. It appeared that Gallatin County had graded this road up in good shape several years ago at the expense of Gallatin County and it was mutually agreed that the road would be re-shaped this year at the expense of Madison County.

It was also mutually agreed that they were to grade up the Madison Valley road at the mouth of Elk Creek a distance of about one-half mile while their outfit was in that neighborhood and charge the same to Gallatin County, which would be a considerable saving over moving the Gallatin County outfit into that vicinity. It was estimated that the cost to Gallatin County for this grading would be approximately \$35.00 per day.

The Board laid out work for Supervisor Weaver on the Madison road.

~~Also laid out work for Supervisor Weaver on the Madison road.~~

Also inspected work by the grader crew on the Clarkston road and laid out work for Supervisor Rohla in said district.

Also inspected the work of George Taylor of cleaning the river of drifting trees above the Kinkle bridge and also the rip-rap work. Found same satisfactory.

Treasurer Taylor presented an agreement of the Manhattan State Bank covering County deposits in the sum of Three Thousand Seventy-three and 39/100 (\$3073.39) Dollars of School District No. 3 registered warrants. On motion made and carried, same was signed and approved, at the same time releasing agreement covering Two Thousand Nine Hundred Forty-three and 98/100 (\$2943.98) Dollars of School District No. 3 registered warrants.

The regular salary claims for the month of April, 1928 were approved and warrants were ordered drawn in payment of same.

The following is a list of the claims presented to the Board during the month of April by the Clerk and for which warrants were ordered drawn in payment of same on the various funds of the County:

A petition with subscriptions to the amount of Eight Hundred Twenty-five (\$825.00) Dollars signed by B.B. Law, J. C. Holland and others for graveling the road beginning about two & one-half miles south of Gallatin Gateway, hence east a distance of two miles, connecting V.I.D. #17 and V. I. County Commissioners' Office,

The Honorable Board of County Commissioners met at the above named office in regular session on Tuesday, the 5th day of June, A. D., 1928, at nine o'clock A. M.

Those present were Hon. John H. Aakjer, Chairman, Hon. F. L. Benepe, Jr., and Hon. Glenn Morgan, as Commissioners, and J. H. Harris, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

Various claims were presented to the Board by the Clerk, and after due consideration, warrants were ordered drawn in payment of same.

The Board allowed M. N. Lord aid in the sum of Eight (\$8.00) Dollars per month and Mrs. Anna Jones aid in the sum of Twenty (\$20.00) Dollars.

J. E. Moore and Mr. Winning met the Board and asked permission to put a ditch across the road in the P. E. G. Smith and Baxter lane. They stated that the ditch leading to their ranches from this point had reached the point where it was almost impossible to keep the same in condition. They stated that with the permission of this Board they would pay for and construct a culvert subject to the specifications of the County Engineer. This was granted.

They also stated that they wished to run a ditch on the east side of the road even with the Baxter headgate, north a distance of about one-half mile. On motion made and carried, Commissioners Morgan and Benepe inspected the ditch and reported that the right-of-way to this point was wide and the road was not a main travelled road and in their opinion there would be no objections permitting the ditch along this road. On motion made and carried, the Board permitted a ditch to be constructed providing that the same does not interfere with the public travel or maintenance of said road in the future.

Mr. Kossiter and Mr. Sorenson, officials of the Milwaukee Railway, and Superintendent Busch of the local office met the Board relative to the West Gallatin Canyon and especially that portion leading from West Yellowstone north a distance of about twelve miles. They asked to what extent the County would cooperate with them towards oiling this road. They were informed that we did not think it advisable to oil this road this year as the County funds had been apportioned for various parts of the County and would not permit additional oiling, but that we would prepare the grade for oiling if they or others wanted to oil it.

The Clerk was ordered to post notices for an extra session beginning Monday, June 11, 1928, not to exceed three days.

The Board adjourned at five o'clock P. M.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

Commissioner Morgan reported that on June 7th he, together with Surveyor Waldorf, inspected the roads of the West Gallatin Canyon to West Yellowstone. Found all in good shape except the sand hill about six miles north of West Yellowstone. They ordered Supervisor Conklin to get three additional men and repair the crib work and remove the excess sand as soon as possible in order that this road might be in condition by the time the Park opens on June 20th.

They also inspected the grades leading across the river at Aldrich; found that the east approach of the bridge was in need of repairs and also that there was some flooring needed. Interviewed Mr. Lemon and asked if he could not do this work. He agreed to report by phone at a later date.

Inspected the bridge at Duck Creek and ordered Supervisor Conklin to put in a bent under the center of the bridge.

The time having arrived to sell Lots Seven (7), Eight (8) and Nine (9), Block Thirty-one (31), Old Town of Three Forks as per resolution of May 8th, and Mrs. Olive M. On motion made and carried, this permission was granted.

Received and approved the report of the Clerk and Recorder for the month of May, 1928.

Mr. Hugh Gee and Mr. Ed Warwood met the Board relative to graveling in their neighborhood. On motion made and carried, the Board ordered the Surveyor to prepare notices and post same for the closing of the road known as "part of the Yellowstone trail near the Ruegamer ranch" more fully described as follows:

All that portion of County Road No. 72 described as follows: Beginning at the point where said road leaves the north and south center line of Section Thirteen (13), Township One (1) North, Range Three (3) East, M. P. M., and thence running northwesterly along said road a distance of approximately 3/4 mile to the northwest corner of said Section Thirteen (13).

#567

Hearing on the above to be held on July 30th at 10 o'clock A. M.

The Board appointed Commissioner Aakjer and Surveyor Waldorf as viewers on Road Petition #566.

On motion made and carried, the Board, together with Surveyor Waldorf, went to the Tom Gilkerson ranch and inspected an abandoned siphon which had been reported in bad condition for several years. After considerable discussion, it was decided that there was no water right for the land through which this siphon conveyed the water and that the County would not stand the expense of building a new siphon. Mr. Gilkerson stated that he would construct a siphon and build up the grade under the supervision of Surveyor Waldorf if permission was granted.

The Clerk was ordered to post notices for an extra session beginning Monday, the 25th day of June, 1928, not to exceed three days.

Mrs. Geo. Marang was allowed additional aid in the sum of \$20.00. Clerk was ordered to draw warrant for that amount on the Petty Cash fund.

EXAMINER'S NOTESCOUNTY TREASURER

One small overdraft existed in the funds of the District Schools.

The Madison Dyke and Drain District Bonds pledged by the Manhattan State Bank to secure deposits of County money, are not proper securities in accordance with our present depository law.

Quite a number of old estates on deposit with the County Treasurer are subject to escheatment.

The County Treasurer should require an official receipt from the Treasurers of Cities and Towns to whom he remits in Gallatin County. A draft drawn by the Town Treasurer through his local bank on the County Treasurer does not meet with the approval of this Department. The County Clerk must accept only the official receipt issued by the City or Town Treasurer as a paid voucher showing that the County Treasurer has made remittance.

COUNTY CLERK

The City of Three Forks and Towns of Manhattan and Belgrade have been billed for their registration fees, printing et cetera, but have not paid for same at the time of examination.

The Trial Balance was checked against the ledger and found to be in reconciliation.

The official bonds were examined and found to be duly approved by the District Judge and properly filed.

The official bonds were examined of the Justices of the Peace, and found to be duly approved by the County Clerk and properly filed.

We note there is an old balance of long standing in the Institute Fund of \$67.35, which should be transferred to the General Fund.

COUNTY COMMISSIONERS

We note that there is no segregation made of Bond Sinking Fund moneys to show how much money there is to pay the principal of bonds and how much there is to pay the interest on bonds. By all means your Honorable Board should make a levy to meet the payments on bonds and a separate levy to meet the interest. In setting up a correct showing of your county indebtedness, it is not possible to do so unless the levies are made as stated and a "Bond Sinking Fund" and a "Bond Interest Fund" are set up. The showing we have made

in this report is approximately correct, as we have eliminated what we have estimated as a fair allowance what there should be in a Bond Interest Fund, were one set up from the Bond Sinking Fund. It should be gratifying to your taxpayers that through your administration of county affairs you have reduced the county indebtedness in the approximate amount as you have.

Claim No. 438, Constance Crist, \$32.05, with receipts attached, does not show to whom the receipt is issued.

Claim No. 476, Republican Courier, \$446.56, does not show the year in which the expense was incurred. Due care should be used to avoid a repetition of approving claims unless they conform to legal requirements.

Claim No. 477, F.G.Slaughter, \$82.70, contains a charge of \$6.70 for expense in returning Calhoun Car from Livingston. The detail showing the various items of expense is not shown. We do not question the amount, but the law requires a detailed itemization.

Claim No. 4144, S.A.Davis, road work \$200.00, does not state what year the work was performed. We note several other claims deficient in this respect.

Claim No. 4346, Parnacott & Sterling, \$30.00, is signed thus: "Eunice Bucklin" in one instance and "Eunice Bucklin Bk" in another. Any person authorized to sign for an individual, firm or corporation should sign by writing the name of the individual, firm or corporation and sign their name showing their title.

To summarize after examining the claims, we find them exceptionally well prepared, especially so in view of the number that are of necessity allowed.

We desire to express our appreciation of the courtesies extended during the examination.

Respectfully submitted,

A. J. Lochrie

I.

The Board of County Commissioners is the County Board of Equalization and must meet on the third Monday of July in each year to examine the assessment book and equalize the assessment of property in the County. It must continue in session for that purpose from time to time until the business of equalization is disposed of, but not later than the second Monday in August.

II.

The Honorable Board of County Commissioners met at the above named office in extra session on Monday, the 8th day of October, A. D., 1928, at nine o'clock A. M.

Those present were Hon. John H. Aakjer, Chairman, Hon. F. L. Benepe, Jr., and Hon. Glenn Morgan, as Commissioners, and J. H. Harris, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

On motion made and carried, the Board inspected work on V. I. D. #22 and laid out work.

The Board also went to Three Forks and, together with Collector Joe Menapace, inspected various County houses for rent and arranged with Mr. Menapace as to the prices.

At the request of Charles Lower of Sappington, the Board appraised Lots Seven (7) and Eight (8), Block Twenty-six (26) and improvements thereon (formerly known as the "green house") Old Flat, Three Forks, for the sum of \$500.00. Mr. Lower was so notified.

Also inspected the Madison River road from the Yellowstone trail to the Virginia City road, the same having been reported rough. Found the road in a passable condition but a number of places badly pitted. The Board decided it best to do nothing on this road until spring and then to have the same put in shape with one of the grading outfits.

Inspected railings on various bridges which had been reported destroyed, and on investigation, it was found a man working for George Mulder had chopped off the railings in order to move a combine harvester. Mr. Mulder was notified to replace same as soon as possible.

County Treasurer Taylor asked to put on the following helpers in his office to write tax receipts for the year 1928:

Mrs. W.D. Bell, Iris Moore, Lillian Finley, Mrs. McCluskey, F. E. Evans, Ed Park, Ella Mae Bright, William Rapke and Martha Kessler.

P. L. Lamson, Supervisor in the Sedan district, met the Board relative to road work in his district. The Board ordered him to grade the hill between Brackett Creek and Sedan. Also laid out additional work for him.

- - - - -

E. E. McMahon, local insurance agent, together with Mr. Reynolds and Mr. Templeton from the Pacific Coast Adjustment Bureau, met the Board relative to a change in the County insurance from the present form to co-insurance. After considerable explanation and discussion, the Board decided it would be a considerable saving to the County to change to co-insurance on the Court House, the jail, the High School and the High School dormitory and gymnasium, and by so doing we would get a much better rate on other County property. On motion made and carried, Mr. McMahon was ordered to make the changes as per agreement.

- - - - -

Frank Tyson, W. Dugger, Bert Dusenberry and Mrs. Bole met the Board relative to putting pit-run gravel on the road beginning at the south end of V. I. D. #8, hence south two and one-fourth miles. They stated they wished to proceed with this work at once. They were informed that the County would grade the road as soon as possible, providing the outfit was available; also furnish dump wagons and all machinery for spreading and plowing and material for a trap; they to furnish the horses and man-power, providing that the work was done under the supervision of the County Surveyor. The Board agreed to take the matter up with the County Surveyor and report as soon as possible.

Bozeman, Montana.

The Honorable Board of County Commissioners met at the above named office in extra session on Monday, the 15th day of October, A. D., 1928, at nine o'clock A. M.

Those present were Hon. John H. Aakjer, Chairman, Hon. F. L. Benepe, Jr., and Hon. Glenn Morgan, as Commissioners, and J. H. Harris, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

Mrs. Crist, County Nurse, met the Board and stated that her car had gotten to the point where it was almost prohibitive to have it repaired and asked that this Board consider getting a new car for that office. The matter was taken up with various car dealers in Bozeman and prices taken under advisement.

E. A. Stiefel, Harry White and Carlisle Kenyon met the Board relative to remodeling the plunge in the Y. M. C. A. building and renting same for storage space to the National Guard. They said that they had been offered \$25.00 per month and that it would take approximately one year's rent to make the necessary alterations. They were advised that in the opinion of this Board it would be uncertain as to the National Guard renting the building for any length of time and would recommend that all alterations be paid for by the National Guard.

A petition in four parts signed by E. M. Cummings and others was presented to form a Voluntary Improvement District for graveling the road from Amsterdam to Vincent siding on Camp Creek approximately five miles. This had not been designated as a preference road at this time; therefore it was placed on file for future action.

Mrs. George Newman was allowed temporary aid in the sum of \$20.00.

Various complaints having been turned in to this Board in regard to a culvert that was put in by Tom Gilkerson for his own benefit on the public highway near his residence across the road from the Catholic cemetery, the matter was taken up with Engineer Waldorf and he was asked to investigate, and if in his opinion the culvert was not put in according to specifications that it be taken up with Mr. Gilkerson.

Mr. Huhnerkoch, Mr. Bates and other residents of Kelly Canyon met the Board and asked that the road be built from the mouth of Kelly Canyon to the top of the divide. They were informed that it would be impossible to rebuild this road at the present time as our outfits would not be available until next spring. They were also informed that the County would furnish a heavy grader and pay for a graderman and one team if they would furnish the balance of the help and teams to put the road in passable condition for the winter. This they agreed to do and the grader was ordered sent to the job immediately.

The Board adjourned at five o'clock P. M.

Gallatin County, Montana,
Dated at Bozeman, Montana, October 2, 1928.
First publication October 5, 1928.
Last publication October 12, 1928.

The book is broken into eight sub- divisions, history, geography, climate, and transportation, recreational areas, people and institutions, the industries and the counties. In practically every part of the book the scope of the material handled has been widened. New features include a more complete historical sketch of the state with a bibliography of Montana history. A director of historical points of interest, a discussion in the transportation division of air ways, bus lines and water ways, in addition to railroads as in former years, a section on highway development with a description of all trails and highways in the state; a recreational directory, giving lists of dude ranches, hot springs, and summer resorts, places of interest to the hunter and fisherman, industrial points of interest, state institutions, Indian reservations, and national forests; and a section on art in Montana with short pictorial sketches of Montana's landmarks.

As the foreword has been made, while an effort has been made to give a complete and fair picture of the state, it is hoped that the reader will find it a most interesting and useful volume. The book is intended for the general public, and is especially useful to those who are interested in the history and development of the state.

VIEWERS' REPORT ON ROAD PETITION # 565.

To the Board of County Commissioners of Gallatin County, Montana:

We, your viewers, appointed to view the road designated in Petition #565, wish to report as follows:

- (1) That we viewed the location of the said proposed road on Nov. 15, 1928;
- (2) That we found the following: (a) That the said proposed road would in the main be used by only two ranches, and would be a dead-end road; and (b) That, exclusive of fencing and right-of-way, it would cost approximately \$350.00 to construct this road according to county standards;
- (3) That we find and recommend as follows:-(a) That, in our opinion, the cost of this road exceeds the amount of benefit to be gained by the general public; (b) that, if shut off from the present road by the closing of their present method of egress, the owners of the two ranches in question have recourse to law in order to procure a private road by condemnation, as has been done in similar cases--and many private roads existing in this county today in similar places; (c) that this petition be denied.

Respectfully submitted,

S. D. Waldorf

Viewers.

Bozeman, Montana.

The Honorable Board of County Commissioners met at the above named office in extra session on Wednesday, the 28th day of November, A. D., 1928, at nine o'clock A. M.

Those present were Hon. John H. Aakjer, Chairman, Hon. F. L. Benepe, Jr., and Hon. Glenn Morgan, as Commissioners, and J. H. Harris, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

Regular/claims for the month of November were approved and warrants signed for same.

On motion made and carried, the Board allowed expenses of the County Agent on a trip to Chicago with the 4-H Club members, not to exceed \$30.00.

Mrs. Crist, County Nurse, met the Board and stated that in order to do sufficient work with baby clinics in the County, it would be necessary to have a room equipped for that purpose. She asked if it would not be possible to have the room in the basement of the Court House now used for mixing squirrel poison equipped for that purpose. She was informed that the matter would be taken up with the County Agent and if it was advisable that the room would be prepared for that purpose.

Various claims were presented to the Board during the month of November by the Clerk, and after due consideration, the following were allowed and warrants were ordered drawn in payment of same on the various funds of the County:

P. M., thence running south one-quarter mile to the Southeast corner of the Northeast quarter of the Northeast Quarter (NE $\frac{1}{4}$ NE $\frac{1}{4}$) of said Section, can be closed, and still allow access to all pieces of ground served by the portion of said road #139 and #90 proposed to be closed; (b) That all rights of way required for the new road have been signed up, except that portion running across the northeast corner of the Southwest quarter of the Southwest quarter (SW $\frac{1}{4}$ SW $\frac{1}{4}$) of Section Thirty (30) Township One (1) South, Range Six (6) East, M. The following letter was received from the State Board of Equalization regarding state banks:

Helena, Montana
December 19, 1928.

TO ALL BOARDS OF COUNTY COMMISSIONERS:

On December 17th the Supreme Court of this state rendered an opinion in the case of Conrad Banking Company of Great Falls vs. Mady, County Assessor, holding that for the year 1928 state bank stock and moneyed capital should be taxed on a 7% basis instead of on a 40% basis.

A large number of state banks throughout the several counties paid the first half of the 1928 taxes under protest and under this decision these banks are entitled to a refund of the difference between the amount paid and the taxes on their bank stock and moneyed capital computed on a 7% basis.

You are, therefore, advised that whenever any such state bank makes application to your board for a refund you should have your County Treasurer inform you as to the total amount of the taxes against such bank stock and moneyed capital computed on a 7% basis and also the amount of taxes paid on such assets and you should then order the difference refunded to such bank. Such refund should be made within the sixty day period starting from the date of the payment of taxes.

You will doubtless understand that these refunds do not apply to real estate or any other property of such bank except that specified above.

We presume that other state banks which did not pay under protest may present claims for refund but this matter can, if desired, be taken care of later.

Yours very respectfully,

STATE BOARD OF EQUALIZATION,

Jas. H. Stewart, Chairman

The bill of Park County proposing to include the two-mile strip on the north of Yellowstone Park and make it a part of Park County and the bill introduced by Darlinton of Gallatin to define the boundaries of Gallatin County, which includes this strip above mentioned in Park County's bill, were discussed at great and heated length. Each delegation wanted the other to withdraw their bill. The meeting adjourned without either party agreeing to anything.

Mr. Benepe and Mr. Morgan reported that on Tuesday, January 22nd, they went to the State Capitol and interviewed the Gallatin delegation of the legislature, and inasmuch as the two boundary bills were in the committee of which Mr. Clausen of Park County is Chairman, after discussion with the Gallatin boys, it was decided to ask that this bill be changed to the Committee on Townships and Counties, of which Mr. Bretzke is Chairman.

Also that Dr. Cogswell of the State Board of Health asked them to meet him in his office and he proposed that we consider putting Gallatin County under a Public Health unit and stated that he could put in for the State \$1200.00, which would be met by a similar sum from the Rockefeller foundation, and the U. S. Public Health Service would contribute \$1250.00. He stated that Cascade County and Lewis and Clark County both had these units and were functioning very nicely in their respective counties. We, not having any figures available, asked him if he could not arrange to have some of the men of either the Rockefeller foundation or the U. S. Public Health Service together with himself come to Bozeman and give us at a meeting to be called information for our people in the County to see if they wanted such a health unit. He stated that he would advise us by mail just when he could get one of these men and come to Bozeman.

FLB:R

Attention was called to the board of a Senate resolution calling for a report on the State Highway's activities, the report to be in the Senate by Monday, February 4th. This report was to cover expenditures in the various districts of the State as to mileage when the Highway Commission was reorganized in each district and County, completed and uncompleted, what they had done in each district and county of each district, and tentative plans as to what was to be done this year. On motion made and carried, the County surveyor was instructed to assemble figures relative to all moneys spent on roads under the supervision of the State Highway Commission and a special meeting was called for February 1st to check these figures and write a letter to the Gallatin County Senator and Representatives for their information.

Regular salary claims for the month of January were approved and warrants signed for same.

Various claims were presented to the Board during the month of January by the Clerk, and after due consideration, the following were allowed and warrants were ordered drawn in payment of same on the various funds of the County:

The State Highway Commission said their policy would be to make a study of the entire State with the view to finding out which roads should be placed on this System and that they would later make their recommendations for the roads to be placed on this System all at one time. They stated they would take this matter under advisement and would give it consideration before making their recommendations.

County Superintendent, Miss Rosenberg, recommended Miss Trena Hollier as Deputy for her office to fill the vacancy caused by the resignation of Miss Rose Miller. Same was approved.

× The bond of George Aitken in the sum of \$500.00 as Supervisor of Road District #3 with Mr. Aitken as principal and E. A. Stiefel and W. P. Porter as sureties was presented and approved.

Mr. Almich of Gallatin Gateway appeared before the Board and stated the culvert crossing the main road north and east of Gallatin Gateway was in bad condition and not large enough to carry irrigating water. He stated it was a Gibson culvert and that the water was leaking out into the road. He was asked to see Surveyor Waldorf and he agreed to look up the matter but in his judgment a larger culvert was needed at that place.

John Sharp of the Bozeman Welding works met the Board and submitted a price of \$116.00 for re-boring the Best Caterpillar engine, he to furnish all parts, new castings, piston rings and oil rings, same to be assembled ready to go into the caterpillar.

Mr. Frank Connelly of the Connelly Machinery Co. met the Board in the interest of his Company and talked over matters pertaining to the sale of caterpillar engines for road maintenance and road planers for maintaining roads.

Henry Buckland met the Board and sold to the County one set of separator trucks for the sum of \$25.00 and the Board sold to Mr. Buckland one cook car complete for the sum of \$75.00.

Mr. J. A. Siffert of the Adams Realty Co. met the Board relative to the Lower Madison or River road which was washed considerably by the Madison River getting out of its channel during the past winter. The Board advised him that they would make the road passable but would not do any permanent work until the Board was informed as to the intentions of the Dike and Drain Commission.

W. E. Westlake met the Board relative to the road from Nick Scudder's to the Virginia City road. He stated this road was in bad condition, being full of holes and in need of repair. He was informed that the road would be inspected and taken care of as soon as possible.

Monday the 25th day of March 1929

J. A. Bartholomew met the Board and discussed the possibility of purchasing the property now owned by the County at 422 South Black and he was advised to make written application for the Board to offer same for sale.

A delegation from Willow Creek and vicinity having met the Board sometime ago and outlined a proposed new road from Sappington to Willow Creek and the Board having advised them at that time that at the earliest convenience, weather permitting, they would come down and view this proposed new road, the Board called them and set a date for the morning of March 26th.

The Clerk was ordered to post notices for an extra session beginning Wednesday, March 27, 1929, not to exceed two days.

The Board adjourned at five o'clock P. M.

County Commissioners' Office,
Bozeman, Montana.

The Honorable Board of County Commissioners met at the above named office in extra session on Tuesday, the 26th day of March, A.D., 1929, at nine o'clock A. M.

Those present were Hon. F. L. Benepe, Jr., Hon. Glenn Morgan and Hon. J. E. Moore, as Commissioners, and J. H. Harris, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

On motion made and carried, the Board, together with Surveyor Waldorf, went to Willow Creek and met Messrs. Buttlemann, Park, Lane Bradbury, Elaherty and Black and went over the proposed road from Sappington to the intersection of the Yellowstone Trail, approximately six miles in length, this road paralleling the N. P. railroad. After luncheon the matter of the proposed road was discussed at considerable length. In view of the railroad being so close to a large ledge of rock in the proposed road, the Commissioners deemed it impossible at this time to offer any suggestion, but it was finally agreed that the people of that vicinity would take up the matter with the N. P. Railway Co., they claiming the railroad had in mind moving their grade a short distance to the north. This they felt would enable them to use the present road bed and in their judgment this road would not be so expensive and would greatly benefit the people in that vicinity.

The Board adjourned at five o'clock P. M.

- - - -

Mr. Culp, State Highway maintenance man at this place, was interviewed relative to the intersection of the Yellowstone Trail and the Springhill road which is considered a dangerous place. He was asked if he didn't think it would be advisable to make a fill of perhaps thirty feet at that place. He said that in his judgment it would be well worthwhile, and he further said that if the fill was made that he would furnish the necessary gravel so as to make the turn passable at all times.

Mr. Culp also informed the Board that the State Highway was contemplating letting the contract for graveling the graded piece of road in Rocky Canyon and said that if at the time this work was being done the County would shape a short distance west of this piece of road and put on gravel that the State Highway would maintain this road in the future. He was advised that this would be taken up with the Board and a report made to him at a later date.

- - - -

Mr. M. Sinnema met the Board and reported that the road from E. M. Cummings house east a distance of about 200 yards, where Kamps would not now permit the removal of his fence, was in a deplorable condition. This particular piece of right-of-way, when the petition was presented for the improving of the road, was owned by A. G. Berthot, the petition being duly signed by him, and since then and the building of the road, was sold by Mr. Berthot to John Kamps, both Berthot and Kamps, together with others in the neighborhood having signed the petition for this road change. When the road was put through in the fall, the fence was not moved for the reason that there was a growing crop on the land and the fence was to be moved at some date later when convenient. It has now developed that Mr. Kamps has objections to the moving of the fence back to the edge of the right-of-way. On motion made and unanimously carried, the Surveyor was ordered to run the line and when this is done notice will be given to the neighbors who were to care for the fencing as the road was constructed, the fence to be moved and rebuilt in a first-class and workmanlike manner.

Minutes of the previous meeting were read and approved.

Dr. A. D. Brewer, newly appointed Health Officer, reported for duty and several problems were discussed relative to the new Health Unit. The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

Various claims were presented to the Board by the Clerk, and after due consideration, warrants were ordered drawn in payment of same.

Assessor Cowan asked that Esther Sloan be put on as extra help during the rush in his office.

Gus Carlson and Frank Scheytt met the Board relative to the graveling on V.I.D.#19, and, inasmuch as they had \$2565.00 and one pit figured, they were asked if they would not split the difference on the cost between one set-up and two set-ups in their hauling expense with the County. They agreed to allow \$279.00.

Frank M. Gray met the Board relative to the voting house in Liberty Precinct, which now seems to be out in the canal right-of-way approximately eight feet and on his property. Inasmuch as this property was purchased and placed by the citizens in that precinct, Mr. Gray was advised to see several of them relative to the following proposition: - That he move the house back from the canal right-of-way, paying all expense connected with such moving, the same to become his property, but with the reservation that for elections the County pay him the sum of \$5.00 per day to be effective on the approval by the people of this voting precinct.

John L. Hartman met the Board relative to a detention hospital. He stated that he had a possible location that would, in his judgment, meet with the approval of all concerned in the same lot where the Pinewood Hospital is located. He stated also he would sell this property and in case the present hospital would cease to function that he would purchase the property back from the County at a reasonable price.

County Commissioners' Office,
Bozeman, Montana.

The Honorable Board of County Commissioners met at the above named office in regular session on Monday, the 3rd day of June, A. D., 1929, at nine o'clock A. M.

Those present were the Hon. F. L. Benepe, Jr., Chairman, Hon. Glenn Morgan, and Hon. J. E. Moore, as Commissioners, and J. H. Harris, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

Various claims were presented to the Board by the Clerk, and after due consideration, warrants were ordered drawn in payment of same.

Emmett Stucky and Charles Spick met the Board and complained about their ditch which crosses the road in front of the Lyon's house on Project #8, stating that the culvert which the County put in is inadequate for carrying the amount of water which they had decreed to them. The Board informed them that they would come out and look over the matter immediately.

On motion made and carried, the Board, together with Surveyor Waldorf went out and inspected the culvert complained of by Stucky and Spick and found the headings and outlet in bad condition and found that the ditch had not enough fall to draw the water off. They were informed that in the judgment of the Board if the ditch had the proper fall, the culvert would be adequate. They complained and said not. It was agreed that if Stucky and Spick would take care of the culvert after being installed by the County that a change would be made from the present size to a 24-inch.

R. S. Dawes reported a Chinaman 85 years of age living in his house and the rest of the Chinamen had discarded him, he not being able to take care of himself and asked that the County give him a few supplies in order that he might exist. Mr. Dawes stated that in his judgment the Chinaman would be able to take care of himself perhaps sometime.

Peter Kerzenmacher from West Yellowstone met the Board and informed us that the bridge crossing the Madison River on the road from the West Gallatin to West Yellowstone was in bad condition, the north end being somewhat sunken down. He was informed the Board would attend to the matter soon.

The Board adjourned at five o'clock P. M.

Raymon Beck, representing Halsey, Stuart & Co., investment brokers, met the Board and the County agreed to buy from him \$12,000.00 of par value bonds of the City of Akron, Ohio, bearing 5% interest, due October 1, 1930, providing these were approved by the State Examiner's office. He stated he could deliver these promptly.

Under the minutes of May 23rd, the County dragline was priced to the Madison Dike & Drain Commission for the sum of \$1200.00, they wishing to avail themselves of the purchase of the same at this time and the County having had this outfit for some fourteen odd years and the same being pretty well worn, in need of a new boiler and various other parts, and it now being deemed for the best interest of the County, on motion made, seconded and unanimously carried, same was sold for the sum of \$1200.00 and the Chairman was authorized to sign a Bill of Sale for the same.

The claims of Mrs. Crist dating from April, 1929 to May, 1929 which allowed were gone over and an error of \$27.50 was found. This amount was paid and Claim #9726.

A claim having been presented to the County for supplies on requisition signed by the Court Stenographer in the sum of \$92.40, the question arose as to whether the County should pay for this item and similar items for the Court Stenographer. Under the minutes of May 23rd, the County dragline was priced to the Madison Dike & Drain Commission for the sum of \$1200.00; they wishing to avail themselves of the purchase of the same at this time and the County having had this outfit for some fourteen odd years and the same being pretty well worn, in need of a new boiler and various other parts, and it now being deemed for the best interest of the County, on motion made, seconded and unanimously carried, same was sold for the sum of \$1200.00 and the Chairman was authorized to sign a Bill of Sale for the same.

The claims of Mrs. Crist dating from April, 1928 to May, 1929 which had previously been allowed were gone over and an error of \$27.50 was found. This amount was deducted from Claim #9726.

A claim having been presented to the County for supplies on requisition signed by the Court Stenographer in the sum of \$92.40, the question arose as to whether the County should pay for this item and similar items for the Court Stenographer. County Attorney Bohart was asked for an opinion from the Attorney-General's office relative to this and future supplies for the Court Stenographer.

The Honorable Board of County Commissioners met at the above named office in extra session on Monday, the 10th day of June, A. D., 1929, at nine o'clock A. M.

Those present were the Hon. F. L. Benepe, Jr., Chairman, Hon. Glenn Morgan, and Hon. J. E. Moore, as Commissioners, and J. H. Harris, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

The Board reports that on June 6th and 7th, as per order of the Board, they inspected the road from the west side of the Park to West Yellowstone, roads in and around the town of West Yellowstone, down the Vigilante Trail along Hebgen Lake; also inspected bridges along these various roads and inspected the work being done by the grading crew and by George Taylor and his men and laid out work for them.

The Board also interviewed a representative committee from the Town of West Yellowstone relative to a proposed new jail building at that point and a location for same. The committee suggested that the jail be built in the area in the center of Block 26. This was taken under consideration, but not deemed advisable until further legal opinions were obtained as to whether the County or anyone else could build in a street or alley. It was agreed however that this could be looked into in detail. The citizens at this time agreed to cooperate with the County in building a jail unit by voluntary labor and hauling of supplies in excess of the amount the County was allowed to expend, viz., \$1000.00.

Several squatters were notified to move their shacks from the areas in the center of the blocks which they agreed to do.

Former Supervisor Bert Conklin was interviewed relative to County machinery and supplies which he had while acting as Supervisor and several blades for the grader which had been brought down into the valley. He was told to give these to the truck crew after they were of no further use in that district.

W. O. Bohart, Mr. Murray and others met the Board relative to proposed improvement on the Bohart road to the Lower Mill by putting on pit-run gravel. On motion made and carried, the Board was ordered to inspect a pit on Mr. Murray's place for the above work which was done. This pit was approved and an agreement entered into whereby the petitioners agreed to furnish all labor necessary to erect trap and haul the gravel, move the fences, etc., the County agreeing to trap the gravel and furnish wagons and material for the trap. The Surveyor was ordered to have one of the grading crews come in and grade this road preparatory to the graveling as above outlined.

H. E. Garber met the Board in the interest of the P & H dragline and shovel machinery and discussed matters and submitted prices on same.

R. M. Bowen met the Board and discussed the Speeder Shovel and submitted prices on same.

Don Christie met the Board and asked that the Board go over his district, which they did. On the road leading from Bridger to connect with the Yellowstone Trail across the hills at a point near the top of the hill, he asked that some rock be shot out in order to make a curve at that place safe. This the Board allowed and arrangements were made for Mr. Christie to do the work.

The Clerk was ordered to post notices for an extra session beginning Wednesday, the 12th of June, 1929, not to exceed two days.

City Clerk

The Clerk was ordered to post notices for an extra session beginning Wednesday, June 26th, 1929, not to exceed two days.

Mr. Hardie, State Highway maintenance man, was interviewed relative to the Trail Creek take-off from the Yellowstone Trail, it being in the judgment of the Board in very poor condition. Mr. Hardie asked that the Board go with him to that place and look over the matter in the afternoon.

On motion made and carried, the Board, together with Mr. Hardie and Assistant Surveyor Emmett Moore, went to the Trail Creek take-off and inspected same with a view to a feasible change in that road; also decided to have a map made showing the exact condition of the road at present and contemplated sending same to the State Highway Engineer at Helena.

Minutes of the previous meeting were read and approved.

On motion made and carried, the Board, together with Assistant Surveyor Moore, met the directors of the Warm Springs canal at the Baker Creek heading and there found a number of the people interested. They greatly protested the location of the crib claiming that the water supply was being cut off. They were informed that in the judgment of the Board the crib was placed merely to protect their gate and that no obstruction was made and that the change in the river was the reason they could not get their water. They were also informed that they could easily throw a tree across the river putting in a temporary dam at that place and get equally as much water as they had heretofore.

The American Legion Post at Manhattan having entered into an agreement some little time past to gravel the cemetery road from Project #41 to the Meadow View Cemetery and this Board having received notice that they had finished their part of the agreement and wished us to inspect the same, on motion made and carried, the Board inspected this work and accepted the same, and the Legion was so notified.

Also inspected the bridge at Amsterdam, a culvert near the Little Holland School, which had been reported of insufficient size, and a dragline road near the Robinson ranch. Found it washed considerably and found the water cutting the ditch from a branch of Middle Creek.

Also inspected the claim of William Dike relative to overflow of some three-fourths of an acre on his place north of Joe Eling's gate. Found that this is a low point and liable to be overflowed at any time any water came down the gulch.

Wednesday the 26th day of June 1929

County Commissioners' Office,
Bozeman, Montana.

The Honorable Board of County Commissioners met at the above named office in extra session on Wednesday, the 26th day of June, A. D., 1929, at nine o'clock A. M.

Those present were the Hon. F. L. Banepe, Jr., Chairman, Hon. Glenn Morgan and Hon. J. E. Moore, as Commissioners, and J. H. Harris, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

Messrs. Richardson, Lovelace, Vandenhock, Banepe, Talmadge, Chambers and Marshall of the Chamber of Commerce met the Board and had a conference relative to meeting the State Highway Commission at Helena on the 27th of June relative to getting the Virginia City road on the 7% system. It was arranged that a number from the Chamber of Commerce, together with this Board and Surveyor Waldorf, meet with the State Highway Commission on June 27th at two o'clock P. M.

Don Christie met the Board relative to doing some work on the Papke hill up Bridger Canyon. He stated that at some time before a mine had been tunnelled under the road and the road was now sinking down. The Board told him to do the necessary work to repair this road.

The County Fair Board met this Board as previously arranged for. They mentioned the fact that they had been getting figures on printing from both The Courier and The Chronicle and they found the figures given them by the Courier office to be greatly in excess of those given them by the Chronicle office and asked the Board what to do in the matter. They were advised to handle the matter in a manner that would be the most suitable, but were advised to again see The Courier and endeavor to have them make some concession or at least compare with The Chronicle.

It appearing that the Road Supervisors were exceeding expenditures of what the Board had anticipated, notice was sent to all Supervisors to stop all work in their respective districts except on order of the Surveyor after July 1, 1929.

On motion made, seconded and unanimously carried, the Board was ordered to Helena to meet with the State Highway Commission to urge the placing on the 7% system of what is commonly known as the Virginia City road; also to take up County matters with the State Board of Equalization and the Attorney-General's office.

Under Chapter 131, Session Laws of 1929, relating to the Regulation and Licensing of Public Dance Halls without the limits of incorporated cities and towns, the Boards of County Commissioners of the various counties are ordered to fix the fees to be charged for licenses granted thereunder, and on motion made and unanimously carried the following fees were agreed upon, to-wit:

\$3.00 for a single dance;
\$10.00 for three months;
\$25.00 for one year.

The Clerk was ordered to advertise in all the County papers to this effect and that all dance hall proprietors make application as provided under this law.

Regular salary claims for the month of June were approved and warrants signed in payment of same.

Various claims were presented to the Board during the month of June by the Clerk, and after due consideration, the following were allowed and warrants were ordered drawn in payment of same on the various funds of the County:

County Commissioners' Office,
Bozeman, Montana.

The Honorable Board of County Commissioners met at the above named office in extra session on Tuesday, the 30th day of July, A. D., 1929, at nine o'clock A. M.

Those present were Hon. F. L. Benepe, Jr., Chairman, Hon. Glenn Morgan and Hon. J. E. Moore, as Commissioners, and J. H. Harris, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

It having been reported that water was running across the road on the west side of the Wiley home ranch, on motion made and seconded Surveyor Waldorf and Commissioner Moore were ordered out to investigate the same.

After making the trip they reported that the water had been overflowing the road in various places and was washing out the road side ditch to a considerable extent. Also found that on the road running north and south Mr. Brenden, who is living on the place, was using the road ditch for his irrigating ditch, digging under the fence and hooking up with the laterals. The County Attorney was informed of the matter and asked to write a letter informing Mr. Brenden to discontinue the use of the road ditch for irrigating purposes and to fill up the ditches that he had dug out connecting up with the laterals in his field.

On motion made and carried Rainbow Lot #33 of Bozeman Hot Springs Tract was sold to Karl Michel for \$10.00, this being deemed for the best of Gallatin County.

The Board met as a Board of Equalization at ten o'clock A. M. The following proceedings were had and done, to-wit:

Regarding the High School budget as approved above, totaling \$81,744.00, inasmuch as the Board of Trustees asked for a 7 mill levy, this seems a little inconsistent as 7 mills will bring them in nearly \$100,000.00. If they confine themselves within the budget for the ensuing year they should be advised to not ask for 7 mills another year.

Regarding the Fair Budget as approved, one item of \$300.00 for their Secretary seems a little out of line as the Manager, Mr. Griffin, stated their Secretary is Mr. Bodley.

The report of the Clerk and Recorder for the month of July was received and approved.

RESOLUTION

WHEREAS, the State Highway Commission of the State of Montana has had charge of and was in control of Federal Aid Project #222-C, which project is located on the Yellowstone Trail in and about and on both sides of the former town of Chestnut in the County of Gallatin, State of Montana; and

WHEREAS, the County of Gallatin controls, maintains and is duty-bound to maintain a road which branches off from the said Yellowstone Trail about midway on said Federal Aid Project #222-C which said road leads up Meadow Creek, thence on to Trail Creek and is commonly known as the Trail Creek cut-off road; and

WHEREAS, the said State Highway Commission has by its construction of said Federal Aid Project #222-C raised the grade of the new road at the point of junction approximately 2½ feet above the grade of the old road; and

WHEREAS, the said Trail Creek cut-off road runs approximately parallel to the said Federal Aid Project road #222-C for approximately three hundred (300) feet; and

WHEREAS, the said raise has caused the fill of the new road to extend out into what was the Trail Creek cut-off road approximately four (4) feet, thereby narrowing said Trail Creek road to that extent; and

WHEREAS, it is the duty of the State Highway Commission to leave this road as affected by the said Federal Aid Project #222-C in as good condition as it was prior to the construction thereof; and

WHEREAS, the said State Highway Commission has been repeatedly notified that the said Trail Creek road as affected by the said Federal Aid Project #222-C is not in an acceptable condition and has never been accepted by the County of Gallatin; and

WHEREAS, the County of Gallatin may or might be found guilty of negligence

Thursday the 5th day of September 19 29

if the present condition is permitted to continue; and

WHEREAS, the said State Highway Commission apparently refuses to remedy the condition of the said Trail Creek road at the said junction as is set out herein and as it in fact exists; and

WHEREAS, this condition has existed for approximately ten (10) months;

NOW, THEREFORE, BE IT RESOLVED:

1. That a copy of the Resolution be delivered to the State Highway Commission and a copy thereof be delivered to the Special County Attorney employed therefor; and

2. That said Special County Attorney be and is hereby directed to bring an action to compel the said State Highway Commission to perform its duty as herein indicated and forthwith after five (5) days from the delivery of a copy of this Resolution to the said State Highway Commission.

The Honorable Board of County Commissioners met at the above named office in extra session on Tuesday, the 10th day of September, A. D., 1929, at nine o'clock A. M.

Those present were the Hon. F. L. Benepe, Jr., Chairman, Hon. Glenn Morgan, and Hon. J. E. Moore, as Commissioners, and J. H. Harris, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

As previously arranged Mr. Poor, Mr. Newland, Mr. Smith and Mr. Hardie of the State Highway Commission met with the Board, and on motion made and carried, the Board, together with Surveyor Waldorf and these gentlemen went east of town to the Trail Creek "cut-off" and inspected the proposition with a view to cooperating with their Department and the Railroad Company in changing Rocky Creek from the present County bridge on the Trail Creek road along the south side of the railroad right-of-way to a point above the old Chestnut station, thence across the track and up north connecting with the new road near the schoolhouse.

The Highway men stated that if the County would procure the right-of-way from the Railroad Company and put in their dragline and change the course of Rocky Creek that they would stand one-half of the cost for the use of the dragline, grade the balance of the road and haul cinders from the old Chestnut mine, the County to load the cinders with the dragline while there.

The Board immediately ordered the Surveyor to prepare maps for this proposed change and the Northern Pacific Railway Co. was so notified through its agent, Mr. Collins, of the intention and that maps would follow.

Messrs. Steifel, Harry White and Kenyon of the High School Board of Trustees met the Board and stated that at their regular meeting on September 9th they had decided not to run the "Y" building as a rooming house for transients, recognizing the law, and that they would confine the same to the use of school activities, that is for teachers and students only.

The time having arrived for the discussion on the precinct changes, W. S. Erwin, Chairman of the Democratic Central Committee, S. C. Moore, Chairman of the Republican Central Committee, and G. O. Arnold, City Manager, together with the Board, discussed particularly the unequal and large registration in the various precincts in the City of Bozeman. Several proposed plans for change were discussed, but it seemed the most feasible to all at the meeting that inasmuch as the City of Bozeman is now under the Commission-Manager form of Government and the old ward lines being obsolete and that precincts could not overlap said ward lines to have Mr. Arnold ask the City Attorney if these could not be abolished and the matter relative to the City precincts was left in this stage for report from Mr. Arnold on next Monday.

In the country precincts, the following changes were proposed:

That Horseshoe Precinct #20 be thrown in with Flathead Precinct #23, these two names abolished and the new precinct called "Menard Precinct", a number to be given later;

Spanish Creek Precinct #13 be abolished and thrown in with Gallatin Gateway Precinct #12;

County Commissioners' Office,
Bozeman, Montana.

The Honorable Board of County Commissioners met at the above named office in extra session on Wednesday, the 2nd day of October, A. D., 1929, at nine o'clock A. M.

Those present were the Hon. F. L. Benee, Jr., Chairman, Hon. Glenn Morgan and Hon. J. E. Moore, as Commissioners, and J. H. Harris, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

The Board reported that pursuant to an order of September 30th all members of the Board, together with Attorney Bunker and G. M. Lewis of Manhattan, went to Helena and met with Assistant Attorney-General Ketter relative to School District #3 registered warrants, on October 1st. The problem presented to Mr. Ketter was as follows:

School District #3 on a 3% allowed under the constitution are entitled to not to exceed debts in any manner the sum of \$68,805.00. It appearing that they had \$67,000.00 worth of bonds and \$19,000.00, or more, of registered warrants, after considerable discussion by all present, Mr. Ketter ruled that if the bonds and warrants were legal at the time of issuance that they were legal now. He was asked if, inasmuch as their indebtedness totaled about \$86,000.00 and the constitutional limit is \$68,805.00, he would consider them legal and he gave the same answer again.

Mr. Moritz, Cashier of the Manhattan State Bank, and Mr. Lewis, a Trustee of School District #3, met the Board and the Board advised them that they could not accept or carry School District #3 warrants as security or collateral for County deposits, or any other School District in excess of the 3% limit as provided by the Constitution of Montana.

The Board received notice from the State Board of Equalization that they had granted the appeals of the Sisters' Home, the Deaconess Hospital and B. A. Black properties.

Mr. Bull reported that he had interviewed Henry Schweitring relative to the care of his mother. He told Mr. Bull that he could not do anything for her.

County Commissioner Bert Maynard of Madison County met the Board and discussed various County problems.

The Board adjourned at five o'clock P. M.

Minutes of the previous meeting were read and approved.

Fred Sivear met the Board as Clerk of the Eagles' Lodge and stated that Nels Quist, a member of the Eagles' Lodge, was destitute and that they had expended as much money as allowed under their by-laws and asked if the County would not look into his case. Mr. Bull was asked to see Mr. Quist at once, which Mr. Bull made an effort to do, but reported that Mr. Quist did not seem to want to talk to him and evaded him.

On motion made and carried, the following Resolution was passed:

R E S O L U T I O N

WHEREAS, the County of Gallatin, State of Montana, has become the owner of the Southwest Quarter of the Northwest Quarter (SW $\frac{1}{4}$ NW $\frac{1}{4}$) of Section Thirty-five (35), Township Two (2) North, Range Three (3) East, M. P. M.; and

WHEREAS, the value of the property, in the opinion of the Board of County Commissioners, is apt to decrease rather than increase for the reason that the buildings and fences are in need of repairs and the West Gallatin River is encroaching upon the land in such a way as to endanger the buildings thereon; and

WHEREAS, the property is of no municipal value to the County of Gallatin, and is held merely as an asset that should be converted into cash; and

WHEREAS, an offer for the purchase thereof has been made; and

WHEREAS, it is the sense of the Board that the offer is a fair offer and the best obtainable; and

WHEREAS, under the provisions of Section 4465, R.C.M. 1921, as amended by Chapter 95 of the Laws of the 18th Legislative Assembly and as amended by Chapter 54 of the 20th Legislative Assembly and as amended by Chapter 38 of the 21st Legislative Assembly, it is necessary that the District Judge of the District Court of the Ninth Judicial District appoint three appraisers to appraise the property; and

WHEREAS, it is necessary that notice of sale for a public auction be given for fifteen (15) days previous to the sale and that notice be given by publication in a newspaper published once a week for two successive weeks and that posting be made in five public places;

NOW, THEREFORE, BE IT RESOLVED, That a Petition be made and signed requesting the District Judge to make the appointment of appraisers as in the law provided and that the Board of County Commissioners cause notice to be published in five public places for fifteen (15) days prior to November 4, 1929 and cause a notice to be given by publication in a newspaper once a week for two successive weeks, all in accordance with the Statute in such case made and provided.

Dated this 3rd day of October, A. D., 1929.

The Board received and approved the Clerk and Recorder's report for the month of September and the report for the quarter ending September 30th.

Messrs. Truitt, Davidson and Vandenhook met the Board and submitted a proposition whereby they would rent the County the East half of the first floor of the building known as the Deaconess Home for \$100.00 per month to be paid by the County and \$50.00 per month to be paid by the City of Bozeman, no time being specified as to the length of lease. They had estimates for remodeling and putting in an additional heating

unit and various other items in the sum of \$5,250.00. They also had maps for the proposed changes and an estimate sheet which they were asked to leave for consideration by the Board. The question was raised as to the additional heating unit in the sum of \$2170.00 and Mr. Truitt mentioned they might cut the County's share to \$75.00 per month. After discussing the above proposition, the Board wrote the following letter to the Hospital Trustees:

"In discussing the maps and estimate you left with us on the proposed detention hospital unit at the Deaconess Home, we find an item of \$2170.00 for new radiation and boiler. The radiation is probably all right as you propose to make an additional room or two and of course they will have to have heat, but when the proposition was up before and we talked of a new annex you said we could hook right on to your present heating plant. Now, that this unit is to be in the present building, we are wondering why a new boiler is necessary at this time.

"Another item is the architect fees of 6%. We feel your organization should absorb this item.

"We would suggest that your Board get together and draw up a tentative proposition and submit it to our Board as to alterations, payments hereafter, length of lease, payment when not in operation and when in operation, etc., in detail."

Mr. Arnett met the Board and reported a culvert broken down on the Heeb lane. He was informed by Surveyor Waldorf that this was being cared for at this time.

Bud Story was called in relative to the rock quarry at Logan. He said that he would look up what the land, including the quarry, cost him and that the County could purchase same at the price that he paid for it.

Letters were written to various parties relative to delivery of wood for use of the County in which they were asked to submit prices on or before two o'clock on October 21st, 1929.

The Board adjourned at five o'clock P. M.

Tuesday the 8th day of October 1929

County Commissioners' Office,
Bozeman, Montana.

The Honorable Board of County Commissioners met at the above named office in regular session on Tuesday, the 8th day of October, A. D., 1929, at nine o'clock A. M.

Those present were the Hon. F. L. Benepe, Jr., Chairman, Hon. Glenn Morgan and Hon. J. E. Moore, as Commissioners, and J. H. Harris, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

Various claims were presented to the Board by the Clerk, and after due consideration, warrants were ordered drawn in payment of same.

Messrs. Truitt, Davidson & Vandenhook and Mrs. T. B. Story, a committee from the Board of Trustees of the Deaconess Hospital, met the Board and submitted another proposition for a detention unit for the County about as follows:

That they will provide the East half of the first floor of the building known as the Deaconess Home, the County to make all changes necessary, for the consideration of \$50.00 per month for the first four years and \$100.00 per month thereafter for eleven years, making a total lease of fifteen years, for which full period the City of Bozeman is to pay \$50.00 per month. The County also to furnish the same with beds, bedding, kitchenware, etc., for which articles they presented a list but no prices. Mrs. Story agreed to get these prices and submit same in the next day or two. This seemed more fair than any proposition that had been put up to the County to date. The same was taken under advisement until the list above referred to is completed by Mrs. Story.

Mr. Casper Seitz was employed to make some repairs in the jail building, sheriff's garage and the health office.

Mr. Conant of the State Highway Commission called the Board from Three Forks and said that it was the intention to route traffic from the Jefferson Canyon over the Flaherty bridge. He also said that the bridge needed decking. He was informed that the matter would be taken up with the Board and Engineer Waldorf and perhaps the work would be done in the near future.

John Kamp met the Board relative to the bridge over the creek at Amsterdam and stated that it was not wide enough to carry the spring full of water and that if something was not done the water would overflow the streets as in the past. The matter was discussed with Surveyor Waldorf and in his judgment he said he thought the bridge should be widened to take care of this situation.

The Clerk was ordered to post notices for an extra session beginning Thursday, the 10th of October, 1929, not to exceed two days.

The Board adjourned at five o'clock P. M.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

Various claims were presented to the Board by the Clerk, and after due consideration, warrants were ordered drawn in payment of same.

A bond was presented by the Standard Construction Co. to cover the work on V.I.D.#22 in the sum of \$8898.00 with themselves as principal and George Cox and Charles Vandenhock as sureties. Same was approved and the contract signed and filed with the Clerk and Recorder.

Mike Crowley reported culverts this side of Brackett Creek on the Bridger road broken down and the roads rutted and in bad condition.

On motion made and carried, the Board and Surveyor Waldorf went to the Irwin Kent road and found a large hole in the big fill at that place. After examining the fill carefully it was decided it would be advisable to send the truck crew out and fill in same with large boulders available in the immediate vicinity.

Also inspected the work being done by Grover Wortman near the Portnell ranch, thence to the bridge lately repaired on Sour Dough, and inspected the work on Sour Dough near Bozeman; also went to the dragline, looked over the new work being done there; also went out on Project #22 to the crusher and inspected the work that had been done by Mr. Townsend sometime ago and wrote him a letter asking him to take out the old structure and make the necessary fill as per agreement.

Judge Law notified the Clerk of the Board that he had appointed John H. Aakjer, Harry White and Frank Rugman as appraisers on the Wade-Curtis property north of Manhattan.

At the regular session of the Board, October 7th, 8th and 9th, various claims were presented to the Board by the Clerk, and after due consideration, the following were allowed and warrants were ordered drawn in payment of same on the various funds of the County:

County Commissioners' Office,

The Honorable Board of County Commissioners met at the above named office in extra session on Monday, the 14th day of October, A.D., 1929, at nine o'clock A. M.

Those present were Hon. F. L. Benepe, Jr., Chairman, Hon. Glenn Morgan and Hon. J. E. Moore, as Commissioners, and J. H. Harris, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

On motion made and carried, the Board, together with Surveyor Waldorf, went to Willow Creek and inspected the Williams bridge as to new decking. This had been asked by Mr. Conant of the State Highway Commission for the Jefferson Canyon traffic which would soon be diverted over that road.

Also inspected smaller bridges in that vicinity and inspected the steel bridge near the Green ranch, on which Jefferson County had worked over their half of the flooring. The Board met Sam Lane and made arrangements with him to refloor our half of the steel bridge by taking up the top deck of the double floor, putting in some new plank and rearranging the old, and putting practically a new top over the floor on the Williams bridge west of Willow Creek.

The Board sold William Jenny of Logan the old coal shed formerly used in connection with the jail at Logan for the sum of \$5.00.

Clerk and Recorder Harris reported to this Board the appraisal as petitioned the District Court on the Wade-Curtis ranch had been filed and the appraisal price set at \$3500.00.

The Deaconess Hospital Board left an estimate with this Board of proposed supplies for the Detention Hospital.

Surveyor Waldorf met the Board and said that it would be necessary to have additional ground for making a channel under the bridge on the road west of the Holland elevator and that it would be necessary to see Mr. Rohrer and ascertain if some additional right-of-way could be secured. Mr. Rohrer was interviewed and he informed us that he would like to look over the ground before he could report on same.

Jake Hoffman, who had agreed to cut the brush along the roadside by his ranch, said he had no tools for cutting the same. The Board purchased a brush hook and he was to cut, pile and burn the brush.

The Clerk was ordered to post notices for an extra session beginning Wednesday, the 16th of October, 1929, not to exceed two days.

The N. P. Railway Co. advised Surveyor Waldorf that their engineer, Mr. Wakefield, would meet this Board near old town of Chestnut regarding the change of road at that point on October 16th at 9:50 A. M.

Mr. Rohrer was called relative to going out and looking over the proposed change on Yellow Dog Creek at his ranch and he informed the Board that he could get away from his business at 2:30 or 3:00 o'clock in the afternoon. Wednesday the 16th day of October 1929

County Commissioners' Office,
Bozeman, Montana.

The Honorable Board of County Commissioners met at the above named office in extra session on Wednesday, the 16th day of October, A. D., 1929, at nine o'clock A. M.

Those present were the Hon. F. L. Benepe, Jr., Chairman, Hon. Glenn Morgan and Hon. J. E. Moore, as Commissioners, and J. H. Harris, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

On motion made and carried, the Board, together with Surveyor Waldorf, met Engineer Wakefield of the N. P. Railway, went to the proposed road change at old town of Chestnut and met Roadmaster McDougal there. These two suggested we extend down the south side of the railroad right-of-way about 300 feet further down across at the east end of the spur of the stock yards there. They stated they would recommend this change. The N. P. officials also stated they would furnish a work train for one day if the County would with the dragline cut down a point almost directly across the tracks from the old station at Chestnut in order to give better vision for this proposed crossing.

The Highway Commission office at Helena was called and Mr. Newland said he would be here October 17th about noon to look over the above suggested change by the N. P.

Dr. Brewer and Dr. Jump met with the Board and looked over tentative proposals made by the Deaconess Hospital Board relative to a Detention Hospital.

The Board awarded bid for twelve steel cots and mattresses for same to be used in the jury room to F. L. Bohart for the sum of \$108.00, he being the lowest bidder.

On motion made and carried, the Board, together with Surveyor Waldorf, inspected roads up Bridger Canyon to the top of the divide and back and down Brackett Creek to the County line. Found same in fair shape but lots of rock rolled down on the road evidently done by passing sheep.

The Board adjourned at five o'clock P. M.

Thursday the 17th day of October 19 29

County Commissioners' Office,
Bozeman, Montana.

The Honorable Board of County Commissioners met at the above named office in extra session on Thursday, the 17th day of October, A. D., 1929, at nine o'clock A. M.

Those present were the Hon. F. L. Benepe, Jr., Chairman, Hon. Glenn Morgan and Hon. J. E. Moore, as Commissioners, and J. H. Harris, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

Joe Menapace met the Board relative to various Three Forks properties owned by the County. He stated the Woodard Company, a chain store, stated they would rent the Downing property provided the County would fix up the same. Mr. Menapace had an estimate for repairing roof, windows, painting, etc. in the sum of \$947.00. He was authorized to get in touch with this Woodard Company and make them an offer of repairing the building and a lease for two years, they to make all alterations and pay Mr. Menapace the commission allowed by the County, in this case amounting to \$120.00, and to have the privilege of an extension of three years at \$50.00 a month to the County.

On motion made and carried, the Board, together with Surveyor Waldorf, met Engineer Newland of the State Highway Commission on the proposed new road at old town of Chestnut. The railroad proposition was acceptable to Mr. Newland and the following in addition to the agreement made sometime ago was agreed upon:

When the dragline is working alone, the rate to be \$40.00 per day; the expense on other work, such as clearing brush, to be fifty-fifty; when hauling by truck, they to furnish trucks and drivers and pay all expense necessary thereto, the County to fill their trucks with the dragline and the County to stand that expense, and the Highway Commission to blade. All the above to be taken care of on certified bill by Engineer Waldorf.

The proposition the N. P. made of a work train for a day and the dragline to cut off a point across the track from the depot was explained to Mr. Newland and he consented to the same.

On motion made and carried, the Board, together with Surveyor Waldorf, went to the mouth of the Gallatin Canyon and inspected the guard rail recently installed by Jim Burroughs. Found same satisfactory with a few minor changes to be made by the bridge crew at a later date. Returned by way of B. A. Black's and inspected his ditch, which he had asked to extend down the fence on the west side of the road for a distance of about as far as his old ditch is now in the road. He was granted this permission.

The Clerk was ordered to post notices for an extra session beginning Monday, the 21st of October, 1929, not to exceed two days.

October 21, 1929

Board of County Commissioners,
Jefferson County,
Townsend, Montana.

Gentlemen:

We were in the vicinity of Willow Creek last week and noticed that you had worked over the floor on your end of the steel bridge near the Green ranch, but that the top floor on the Williams bridge on the Flaherty road was in deplorable shape, and would ask if you intend having your boys fix this as we are going to repair ours right away.

Yours very truly,

BOARD OF COUNTY COMMISSIONERS,

Thursday the 21st day of November 19 29

County Commissioners' Office,
Bozeman, Montana.

The Honorable Board of County Commissioners met at the above named office in extra session on Thursday, the 21st day of November, A. D., 1929, at nine o'clock A. M.

Those present were the Hon. F. L. Benepe, Jr., Chairman, Hon. Glenn Morgan and Hon. J. E. Moore, as Commissioners, and J. H. Harris, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

The Board reports that they met a large delegation of citizens from School District #3 of Manhattan last night as by former arrangement and discussed the financial condition of School District #3 at length. It was brought out at this meeting that the action of this Board in stating to the School Trustees and the Manhattan State Bank that they would not take their registered warrants as collateral to secure County deposits with the Manhattan State Bank had caused others who had prior to this time been cashing or taking said School District #3 registered warrants to become skeptical and that now those to whom the school district had issued warrants could not get them cashed. Also if this condition continued the natural result would be the closing of this school by reason of the teachers resigning on account of not being able to get their money, nor would any others receiving warrants from the School district. It further developed at this meeting that if this Board would rescind the former order and take a nominal sum of say \$10,000.00 worth of School District #3 warrants as collateral from the Manhattan State Bank to secure County deposits it would restore confidence in investors to the extent that it would be thought the school could function in the proper manner. The Board agreed to do this and the following letter was written to the Manhattan State Bank:

"Relative to collateral from your bank to cover County deposits, will say that we will take a maximum of \$10,000.00 worth of School District #3 registered warrants, providing you will leave the other collateral you now have up, or its equivalent, at all times. Any reduction in the collateral will be made by first reducing the amount of #3 warrants."

Treasurer Bell called the attention of the Board to a matter concerning the unpaid taxes on the closed Home State Bank and the Willow Creek State Bank and stated that the receivers for the respective banks had made a distribution and in his judgment taxes were a paramount or prior lien over any other distributions and should have been paid first. Letters were written to both Mr. J. A. Price, Receiver of the Willow Creek State Bank, and Mr. Geo. K. Clarke, Receiver of the Home State Bank, regarding these taxes.

Arrangements were made through Mrs. R. H. Dean for room rent for Elinor O'Connell and claims were authorized at the rate of \$7.50 per month and further to give her necessary clothing.

Treasurer Bell reported that he would put Miss Horkan on in his office to assist in the issuance of motor vehicle certificates.

C. T. Stanley, who had previously met the Board, stated that he had spent the money formerly allowed him and that he had seen Attorney Gray relative to the matter of obtaining some relief from Ray Myers on whose place he had been injured. Inasmuch as there was a large family and it would be sometime probably before this matter would be settled with Mr. Myers he was advised that a requisition would be issued for some groceries. Capt. Halpenny of the Salvation Army met the Board and asked if we would cooperate with them in the usual way for the poor during the holiday season. The Board agreed to allow them fifty chickens to be used in baskets for the poor of Bozeman.

Mrs. Fred Sandon met the Board and asked to have her rent paid for two or three months. This the Board agreed to do and claims were made for same.

Dr. Jump having reported to the Board that Elsie Miller, a County charge, who has been assisting at the Deaconess Hospital, refused to stay at that institution and do any work, on motion made and carried the Board met at the hospital with Miss Eberl, the superintendent, and after discussing Miss Miller's case, Miss Eberl stated that she would endeavor to get Miss Miller's mind off of this strike. She was thanked for this and also for her efforts in the past.

The Board also inspected the work being done at the County shop, both on the new building and the repair work on the County machinery.

Commissioners Morgan and Moore reported that pursuant to former order of the Board they went to Twin Bridges on Saturday and met Mr. A. D. Anderson, who represents the Woodward Chain Store at that place, and informed him that owing to the County not being in a position to issue a lease for the building located on Lot 3, Block 16, Old Flat, Three Forks, and such contract had been sent to him, it was deemed advisable to ask him to return the contract until such time as the Board is in position to take a tax deed for the same. It was agreeable with Mr. Anderson to return the contract until the above arrangements could be made.

Young Mr. Leffingwell met the Board and reported that he had brought Thomas Broadway from Wilsall and left him at the Pinewood Hospital as per former arrangement.

The Board adjourned at five o'clock P. M.
