 The Board authorized hospitalization at County expense for Joan Parsons, who was admitted to the hospital today.

 Coroner Howard Nelson conferred with the Commissioners regarding the burial of an unknown man who was found dead in a box car in the vicinity of Belmont on the Milwaukee road. This man, according to the verdict of the Coroner's jury, had committed suicide and the body has been held by the coroner at the Dokken Funeral Home awaiting identification. The Board decided it would be useless to hold the body any longer as all reasonable means of identification have been exhausted without success. The Board authorized burial to be made tomorrow at County expense.

 Hayes Bryant and John Cook came to see the Commissioners to arrange matters pertaining to the County beginning work on the Greenwood Elevator road. All is in readiness to begin the work and the Board agreed the County would begin work as soon as possible.

Minutes of the previous meeting were read and approved.

The Board agreed to allow the usual \$50.00 to the Dokken Funeral Home for burial of Charles Carl Nahlinger, an Old Age Pensioner, who had passed away.

County Surveyor Waldorf met the Board and stated he was in need of some arched culverts on the Gooch Hill road. He was instructed to order these from the Montana Culvert & Pipe Co. of Missoula at a cost of approximately \$460.00.

P. H. Gaffney presented a bond in the sum of \$32.00 with himself as principal and J. D. Street and Walter F. Chauner, as sureties, this bond being twice the amount of Poor Fund Warrant #11556 issued to him, which warrant Mr. Gaffney stated he had lost. The Chairman was authorized to approve the bond and the Clerk was ordered to draw a duplicate warrant in the amount of \$16.00.

On motion made and unanimously carried the following Resolution was passed:

B9117—TRIBUNE P. & S. CO.

EXAMINER'S NOTES

The receipts, disbursements, bank balances, depository securities and cash were verified during the examination. The several cash fund accounts of the Treasurer and County Clerk were in reconciliation.

The provisions of Section 4465.20 relating to publication of claims paid and Commissioners' proceedings had not been complied with prior to August 29, 1939. Publication is mandatory and should not be deferred or overlooked.

Official bonds of all County officers were on file, as required by law.

The fees of the County officers were remitted to the County Treasurer monthly, but a great many of the remittances had not been remitted on or before the first Monday of each month as required by law. Fees should be deposited promptly with County Treasurer.

While the "Ten-Year Real Estate Record" had been set up and the "Treasurer's Register of Land Acquired by Tax Deed" has been nearly completed, no record of the percentages due the several funds has been set up. Distribution of tax deed sales should be made to the various funds, only on the basis of percentage equity, and not on a basis of an average of levies.

The balance sheet does not reflect a true condition so far as tax deed transactions are concerned, inasmuch as losses or gains occasioned by sales have not been taken into account. This condition has existed for some time and should be corrected so that controlling accounts will be accurate and true. This also applies to depreciation accounts which should be adjusted agreeable to instructions given to the Commissioners during the examination.

Suggestions of importance in the proper handling of the financial stationery accounts were gone into in detail with the County Clerk's office. All licenses or receipts of whatever kind must be consecutively numbered by the County Printer or County Clerk, and each receipt must be accounted for in the manner prescribed by this department. Current tax collection receipts must be cancelled, at the time the County Clerk and Treasurer make their settlement of current tax collections, by the County Clerk and not by the Treasurer as done in the past. An effective financial stationery accounting system is essential and we hope to have full cooperation in these matters.

We found that licenses had not been collected from manufacturers of non-intoxicating beverages according to Section 2436, and manufacturers' and contractors' licenses, such as flour mills and other enumerated in Section 2441, R. C. M. 1935. The law requiring collection of licenses should always be strictly observed.

Instructions of importance were made to the Board of County Commissioners relative to the matter of having all cancellations of taxes, of whatever kind, made upon application and approval of the County Commissioners only, instead of by the County Treasurer as in the past. Forms for application for cancellation of taxes were submitted with instructions.

The County Clerk and Treasurer were carrying Gallatin County High School District Accounts as County Accounts instead of Trust and Agency Accounts. Beginning with the next fiscal year, proper transfers should be made to properly record such transactions as Trust and Agency matters.

The examination of the County Fair Commission's records revealed that payments of premiums had not been handled properly and expenditures had been made without requiring proper claims. During the examination, a voucher-warrant form was prepared for use, and such warrants were supplied and used for making this year's premium payments.

The manner in which gopher poison sales had been accounted for by the County Agent's office did not comply with our requirements. Use of duplicate sales' checks, serially numbered, and summaries of the sales' checks must be put in operation as explained in detail during the examination.

We found a great many old estates that have balances to their credit which have been in process of administration for a number of years. It appears that many estates should be closed and some escheated to the State of Montana. We also found that the former Public Administrators had not made a complete record of their operations of the estates in the Public Administrator's register. All items of receipts and disbursements should be entered and be balanced with the County Treasurer's accounts at the end of each month. We trust that former Public Administrators Gracey and Heidel will give their attention to making speedy and proper disposal of their incompleated cases.

The examinations of the accounts of the Justices of the Peace revealed that in some instances the Justices reported and remitted moneys collected for fines to the State of Montana instead of the County for its School Fund, and in other instances accounted to the County instead of the State of Montana. Vouchers were prepared during the examination for the purpose of adjusting these irregularities. We also found that some of the Justices were permitting offenders to make up their fines on the installment basis. According to the Attorney General a Justice of the Peace may not release one who pleads guilty to an offense for the purpose of raising funds with which to pay the fine, nor has a Justice of the Peace the power to defer payment of a fine when once imposed or to permit the fine to be paid in installments over a period of several months.

The claims were found to be exceptionally well itemized, acknowledged and approved prior to payment. However, we noted in some claims for mileage charges, complete itemization was lacking. Full itemization, giving points of travel, is necessary to permit a satisfactory audit. Claim No. 8898 includes mileage charges which are subject to these remarks.

Claim No. 63, Chronicle Publishing Company, included payment for sample ballots amounting to \$13.43, which amount we found had not been refunded to the County. The Attorney General has held that the County Clerk is not authorized to obligate the County for printing sample ballots. See Opinion No. 63, Vol. 17, Attorney General's Opinions. Sample ballots charged for in Claim No. 1523, amounting to \$13.43, had been refunded only

for the amount of \$8.75.

Reference is made to our statement of comparative indebtedness which shows that your net indebtedness for the fiscal year ending June 30, 1939, decreased in the amount of \$44,125.99, which is commendable. The examination revealed that the financial condition of the County is exceptional and your financial policy is sound.

Respectfully submitted,

A. M. Johnson,

The Clerk was ordered to post notices for an extra session beginning Thursday, February 8th, 1940, not to exceed two days.

The Board granted John Vandolah permission to get 3 $\frac{1}{2}$ cords of wood from the County yard, he being in immediate need of fuel and being unable to go to the mountains for wood, on account of snow-bound roads, and having no credit to purchase fuel. It was understood that Mr. Vandolah is to repay the County with the same amount of wood.

The Board adjourned at five o'clock P. M.

The Honorable Board of County Commissioners met at the above named office in extra session on Thursday, the 8th day of February, A. D., 1940, at nine o'clock A. M.

Those present were the Hon. W. M. Alberda, Chairman, Hon. P. H. Gaffney, and Hon. W. I. Brownell, as Commissioners, and Bess Fowler, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

The Board sold to Lyle and Frances Ford McKnight of Bozeman under contract a strip of ground 60ft. x 276 ft. west of Lots 13 & 14, Block "G", Story's Addition to Bozeman, at the appraised price of \$180.00. A down-payment of one-fifth, or \$36.00, was made, the balance to be paid in four equal annual installments of \$36.00 each, with interest at the rate of 4% per annum.

County Commissioners' Office,
Bozeman, Montana.

The Honorable Board of County Commissioners met at the above named office in regular session on Wednesday, the 3rd day of July, A. D., 1940, at nine o'clock A. M.

Those present were the Hon. W. M. Alberda, Chairman, Hon. P. H. Gaffney, and Hon. R. L. Frank, as Commissioners, and Bess Fowler, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

Various claims were presented to the Board by the Clerk, and after due consideration, warrants were ordered drawn in payment of same.

The Clerk was ordered to post notices for an extra session beginning Friday, July 5th, 1940, not to exceed two days.

George Lunday, Assistant Sales Manager of the Three Forks-Portland Cement Co. came before the Board and discussed the building of the road leading from Highway #10 to the Trident cement plant. The road contemplated is to be a Federal feeder road built by the State Highway and the question being discussed is the raising of money to match Federal funds. The County agreed to contribute \$10,000.00 and the Cement Company offers to furnish the cement for the bridges, free of charge, F. C. B. at the Trident cement plant. The Board decided to contact the State Highway Commission in an endeavor to persuade them to supply the extra necessary funds to complete the project, and, if possible, to arrange to begin the work at once.

At the regular session of the Board on July 1st, 2nd & 3rd, 1940, the following claims were allowed and warrants ordered drawn in payment of same on the various funds of the County:

They both said there was a board broken before they crossed the culvert. Mr. Mize stated he stopped and put a board up as a warning.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

Various claims were presented to the Board by the Clerk, and after due consideration, warrants were ordered drawn in payment of same.

Roy R. Ayers, Veterans' Burial Supervisor, met the Board and the placing of headstones on Veterans' graves was taken up with him. Since he had in the past ordered headstones for the graves, the Board informed him that from now on application for the headstone must be made by the Clerk as provided by Section 4539, R. C. The Board sold to C. M. Keil of Bozeman Lots 13 & 14, Block 6, Crescent Addition to Belgrade, at the reappraised price of \$5.00 per lot, a total of \$10.00. The County Attorney was ordered to draw a deed.

The Board sold to Stella Fitzstephens of Belgrade, Montana Lots 1 to 5, inclusive, Crescent Addition to Belgrade, at \$4.50 per lot, a total of \$22.50, this being 90% of the appraised value. The County Attorney was ordered to draw a deed.

The Board purchased approximately ten cords of dry pine pole wood from W. L. Fogle at \$4.00 per cord, same to be delivered at the County yard by the 23rd of October.

Messrs. Floyd Hughes and H. B. Chambers from Manhattan met the Board and asked to have the Manhattan road south graded for about one mile beginning at the Moreland Canal and extending south.

Messrs. Sam Allen, Jess Robinson and Wm. Fitzstephens of Belgrade called in regard to having the street and road west of the Belgrade school graded. The Board told them this would be taken up with the Surveyor.

George J. Allen, Attorney for the Park Electric Cooperative, Inc., a cooperative association, duly organized and existing under and by virtue of the laws of the State of Montana, having heretofore appeared before this Board and explained that said association had entered into a loan contract with the Rural Electrification Administration, whereby said Administration has granted a loan to the said Association for \$119,000.00 and more if necessary, for the construction of an electric transmission and distribution line which will make available to many taxpayers and citizens in Gallatin and Park Counties, Montana, electrical energy for domestic and farm use, and has requested on behalf of said Association and the Rural Electrification Administration that the Association be granted without charge, a right-of-way easement for the erection, maintenance and replacement of such electric transmission and distribution line over, across and upon any County highway, road, lane, alley, street or thoroughfare located within the County of Gallatin, State of Montana; and it being explained that the construction of said rural electrification line would be advantageous to many taxpayers in this County and would have a tendency to increase the assessed valuation of the County and assessable valuation of the land traversed by said line, and the Board being of the opinion that it would be to the best interests of Gallatin County, Montana, to fully cooperate therein and that any necessary easement should be granted to said Association without charge, and that any necessary easement to that effect should be executed and delivered, on motion duly made and seconded, the following resolution was unanimously adopted:

RESOLVED, That W. M. Alberda, Chairman of the Board of County Commissioners of Gallatin County, Montana, be and he is hereby authorized to execute on behalf of Gallatin County, Montana, and deliver to the Park Electric Cooperative, Inc. such easement as required by the said Association in order to expedite the construction of the proposed rural electric transmission or distribution line.
