The following Petition was received:

P E T I T I O N

March 20, 1951

To: Gallatin Board of County Commissioners, Bozeman, Mont.  
Gallatin County Superintendent of Schools, Bozeman, Mont.  
Gallatin County Attorney, Bozeman, Mont.  
From: Manhattan High School Board, Manhattan Montana  
Subject: Establishing of the Logan Common School District No. 1, Gallatin County, Montana, as part of the Manhattan High School District.

We, the Manhattan School Board, in regular meeting as of March 19, 1951, unanimously agree to again petition the Gallatin County Board of County Commissioners to have the Logan Common School District No. 1, Gallatin County, Montana, legally and finally established as a part of the Manhattan High School District.

The Logan Common School District No. 1, rightfully belongs to the Manhattan High School District. We submit the following reasons:

1. When the Logan High School was abandoned in 1924 by the action of the Logan School Board the question immediately arose at that time where they would send their High School students to school. After due and careful consideration they chose the Manhattan High School from a standpoint of convenience, nearness and economy, based on the following reasons:
  - A. Manhattan was closer.
  - B. The Manhattan School District was already running a school bus up to the boundary of the Logan District picking up the several families of children living between Manhattan and Logan. An extension of this bus line into the Logan District would not entail too much more expense. On the other hand, however, there was no school bus running out of Three Forks toward the Logan School because there were no families of children living on the barren stretch of ground across the Madison Valley between Logan and Three Forks.
  - C. Manhattan was the logical outlet and banking center of the town of Logan. It was also the logical trading center of Logan people for any material which needed to be purchased outside of the town of Logan.

These same conditions now exist as in the year 1924.

2. From the very beginning, for 27 years, the only High School bus that would serve the entire Logan School District has been the Manhattan High School bus. This bus has served the Logan High School students continuously and without interruption year after year and without the benefit of Logan tax money.

faction and they wish to continue their attendance at Manhattan.

4. The Logan patrons, nearly all of them, are in favor of their students coming to the Manhattan High School. They resent having their District attached to the Three Forks High School District absolutely against their will and without themselves having any voice in the matter.

5. It is against the laws of a democracy to impose taxes upon any district or people without the receipt of some benefit therefrom, as in the case of the Three Forks High School District benefitting from a School District which for 27 years has used almost exclusively the Manhattan High School.

6. The division of Gallatin County into High School Districts was authorized by the Emergency Special Session of the Montana Legislature in 1935. This Special Session was called for the specific purpose of providing funds and revenue for PWA and WPA projects for bonding purposes only. Immediately following this Special Session of the Legislature, the Gallatin Board of County Commissioners made the division of the County for the purpose of setting up WPA and PWA projects. In making the division they consulted no Common School District. Manhattan was the only High School District in the County that needed no new erections and it consequently followed that Manhattan was given a High School District smaller in taxable valuation than either Belgrade or Three Forks yet had a High School, at that time, as large as Belgrade and Three Forks combined. Several Common School Districts complained about the division and several of them petitioned the Board of County Commissioners for a reconsideration at that time. The people of the Logan district, at that time, signed a petition containing almost a hundred per cent of the resident taxpayers of their district asking to have their district attached to the Manhattan High School District instead of the Three Forks High School District. The Logan petition was disregarded because, as the Commissioners stated, the division was for raising funds for PWA projects only.

Two years ago the taxpayers of the Logan High School District again petitioned the Board of County Commissioners asking to have their Common School District attached to the Manhattan High School District. Their petition should be on file in the County Commissioners' office.

According to a ruling from the Attorney General's office the emergency legislation passed by the 1935 special session of the Legislature becomes ineffective as soon as the emergency was over except for bond issues and commitments resulting from this legislation. For this reason the Manhattan High School District now petitions the Board of County Commissioners to have the Logan School District included in the Manhattan High School District where it rightfully belongs. This attachment of the Logan Common School District to the Manhattan High School District should be made and procedure followed according to the law which now exists. Respectfully submitted.

WHEREAS, Section 16-1907, Subsection 5 R.C.M. 1947, provides:

"Upon the happening of an emergency...for the immediate preservation of order, or of public health...the County Commissioners may, upon adoption by unanimous vote of all members present at any meeting, the time and place of which all members shall have had reasonable notice, of a resolution stating the facts constituting the emergency and entering the same upon their minutes, make the expenditures or incur the liabilities necessary to meet such emergency without further notice or hearing;" and

WHEREAS, the Merit System of the State of Montana, pursuant to the laws of Montana, has made provisions for an increase in salary of Public Health Nurses Number Three, Second Step, and that said increase of salary shall be paid by the State of Montana to the said Nurse employed within a given County, provided that the County wherein the said Public Health Nurse is employed pays unto the other employees of the Board of Health the minimum salary of the said latter employees' classification and step as prescribed by the Merit System of the State of Montana; and

WHEREAS, Mrs. Dorothy Burleigh, Public Health Nurse Three, Second Step, is employed by the State of Montana and works for the Board of Health of the County of Gallatin and is entitled to an increase in pay by the rulings of the Merit System of the State of Montana, and further, Lester D. Groom, Sanitarian Two, Third Step, is at present employed by the County of Gallatin, and by the State of Montana, at the present salary of Two Hundred Ninety-five Dollars (\$295.00) per month, payable fifty per cent (50%) by the County of Gallatin and fifty per cent (50%) by the State of Montana, and further that Margaret Cousins is employed by the County of Gallatin in the classification of Clerk-Stenographer Two, Third Step, at the salary of Two Hundred Fifteen Dollars (\$215.00) per month, payable entirely by the County of Gallatin; and

WHEREAS, the Merit System of the State of Montana, pursuant to the laws of Montana, has established a minimum wage for Sanitarian Two, Third Step, at Three Hundred Five Dollars (\$305.00) per month and a minimum wage of Two Hundred Twenty Dollars (\$220.00) per month for Clerk-Stenographer Two, Third Step; that the present salary paid to Lester D. Groom, Sanitarian Two, Third Step, is Ten Dollars (\$10.00) below the minimum wage allowable by the Merit System of the State of Montana, and the present salary of Margaret Cousins is Five Dollars (\$5.00) less than the minimum wage allowable; and

WHEREAS, Mrs. Dorothy Burleigh, Public Health Nurse Three, Second Step, is a competent well-trained nurse with 23 years service in Public Health Service for the State of Montana; and

WHEREAS, there exists a shortage of competent Public Health Nurses of the classification and Step of that of Mrs. Dorothy Burleigh, and it is impossible to replace Mrs. Dorothy Burleigh if she were to leave the service of the County of Gallatin; in the opinion of the Board of County Commissioners, the public health and the services rendered to the people of the County of Gallatin would be seriously impaired if the County of Gallatin were to lose the services of Mrs. Dorothy Burleigh, which shall happen unless Mrs. Dorothy Burleigh's salary is allowed to be increased by the State of Montana;

NOW, THEREFORE, BE IT RESOLVED, by the Board of County Commissioners of the County of Gallatin, State of Montana, in extra session assembled, all members thereof being present and concurring in the deliberations of said Board as required by law, that the salary of Margaret Cousins, Clerk-Stenographer Two, Third Step, be increased Five Dollars (\$5.00) per month from her present salary of Two Hundred Fifteen Dollars (\$215.00) per month to Two Hundred Twenty Dollars (\$220.00) per month, and that the salary of Lester D. TO THE BOARD OF  
COUNTY COMMISSIONERS  
GALLATIN COUNTY, MONTANA

We, the undersigned, appointed as Road Viewers on Road Petition No. 599, which Petition requests that the Board of County Commissioners abandon and vacate as a public road the County Road described in said Petition, wish to report as follows:

1. The Board, as viewers on Road No. 17A, wish to report that they viewed Road No. 17A, as per Petition No. 599, this date;
2. Found the right-of-way between fences only 32 feet wide, and from the fences on the West side to an irrigating ditch on the East side of the road, only 20 feet. The road is too narrow to put up a grade and, it being low, it is passable only part of the time on account of the water condition when irrigating is on;
3. We recommend that a hearing be held, as required by law, at which interested parties may appear and the Board of County Commissioners finally determine whether or not said road should be vacated as a public road.

Mrs. Mary E. Truitt, Safely Apartments, an OAA case, entered the hospital on May 7th, under the care of Dr. Scherer.

The Board gave Mrs. Helen Davis Lawrence, 432 N. Willson, a grocery order for \$5.00 on Ralph's Grocery. Her husband is in Seattle and she is out of funds. The Board also decided that it was best to furnish her with some gas and oil for her car, and some cash, so as to get her out of this County, as they are not residents of Gallatin County. Her husband is having some trouble with the Army.

The following Notice was mailed to every School District in Gallatin County by the Superintendent of Schools:

May 8, 1951

Wednesday THE 6th DAY OF June 19 51

County Commissioners' Office  
Bozeman, Montana

The Board of County Commissioners met at the above named office in regular session on Wednesday, the 6th day of June, A. D. 1951, at nine o'clock a. m.

Those present were J. O. E. Nelson, Chairman, George L. Stucky and C. W. Cramer, as Commissioners, and Earl Walton, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

Various claims were presented to the Board by the Auditor and, after due consideration, warrants were ordered drawn in payment of same.

The Board went out and inspected a culvert on the Three Forks-Willow Creek Road near Pete Tocci's place. He is complaining that it was reduced in size when it was repaired and now does not allow all of his irrigation water to pass through it. The Board found that the pipe leading to the culvert under the road is a 24 inch pipe and that the culvert under the road is taking care of the water. The Board does not see where any change is needed at this time.

At the Regular session of the Board, June 4th, 5th and 6th, the following claims were allowed and warrants ordered drawn in payment of same:

County Commissioners' Office  
Bozeman, Montana

The Board of County Commissioners met at the above named office in extra session on Monday, the 16th day of July, A. D. 1951, at nine o'clock a. m.

Those present were J. O. E. Nelson, Chairman, George I. Stucky and C. W. Cramer, as Commissioners, and Earl Walton, Clerk and Recorder, as Clerk to the Board.

The following proceedings were had and done, to-wit:

Minutes of the previous meeting were read and approved.

The following letter was sent to the State Highway Commission, Helena, Montana, George Barrett, Tom Ratchford and the County Attorney, Bozeman, Montana:

Gentlemen:

The County Commissioners of Gallatin County wish to call your attention to the damage being done to County Roads by McKennon & Decker, contractors, on U. S. No. 10, East of Bozeman, by detouring traffic on County roads. These roads were built by our County Surveyor to take care of farm traffic in this area.

1st. Heavy traffic of trucks should not have been detoured over these County roads.

2nd. The farmers in this area graveled this road with their own money and are up in arms, and do not like to have their roads being worn out by traffic that belongs on U. S. No. 10.

3rd. It is a decided benefit to the contractor to have this traffic detoured off the road that he is constructing.

4th. The County Commissioners feel that the contractor is liable for repairing the road back into the same condition as it was when he started to use it as a detour.

5th. As the County Commissioners see the picture, it is that the State Highway Department should see that the contractor either repair the road or reimburse Gallatin County for damage done.

Yours very truly,

BOARD OF COUNTY COMMISSIONERS

By /s/ J. O. E. Nelson

Chairman

The Board approved the application of Evelyn Herbert as County Supervisor of the Welfare Department to replace the vacancy caused by the resignation of Frank X. Muller, effective July 1st, 1951, at a salary of \$260.00 for the first six months.

The Board went out to the Bozeman Hot Springs to look over the roads in that area. Also visited the Gallatin River area North of Gallatin Gateway where the County did some rip-rapping last winter, and decided that later on the County may have to put a bulldozer in the river to divert some water into the East channel.

Approved the Auditor's report of the examination of books of various County and Township offices for the month of June, 1951.

The Board contacted the President of the Belgrade Chamber of Commerce in regard to the Jack Rabbit Lane, which is to be oiled in 1952. The Board told them to get busy on their collections for the graveling done last year if they wanted the Jack Rabbit Lane oiled.

The Board met as a Board of Equalization at ten o'clock a. m., according to law, to adjust the taxes of Gallatin County.

The officers of the Board present were as follows: J.O.E. Nelson, George I. Stucky and C. W. Cramer, as Commissioners, and Earl Walton, Clerk and Recorder, as Clerk to the Board.

The following is a copy of the rules and regulations governing the Board of Equalization:

RULES AND REGULATIONS GOVERNING THE BOARD OF EQUALIZATION

I.

The Board of County Commissioners is the County Board of Equalization and must meet on the third Monday of July in each year to examine the assessment books and equalize the assessment of property in the County. It must continue in session for that purpose from time to time until the business of equalization is disposed of, but not later than the second Monday in August.

II.

No assessment as returned by the Assessor shall be lowered, or raised, or any reductions or additions thereto, or changes therein made, except as provided by Sections 84-601 to 84-610, inclusive, Revised Codes of Montana, 1947.

III.

No assessment shall be lowered or reduced unless the party affected thereby or his agent makes and files with the Board on or before the 1st day of August a written application therefor verified by his oath, stating the particular items sought to be lowered or reduced and the facts upon which it is claimed such reduction should be made.

## IV.

No assessment shall be lowered or reduction granted unless the person or the agent making the application attend and answer all questions pertinent thereto and the Board has authority to subpoena such witness as it may deem in its discretion proper and necessary.

## V.

The Assessor or his deputy shall be present at all sessions of the Board and aid and assist the Board in all matters that may come before it.

## VI.

The Board of County Commissioners must use the abstract and all other information it may gain from the records of the County Clerk or elsewhere in equalizing the assessment of the property of the County and may require the Assessor to enter upon the assessment books any property which has not been assessed; and any assessment made as prescribed in this section has the same force and effect as if made by the Assessor before the delivery of the assessment book to the County Clerk.

## VII.

During the session of the Board of County Commissioners, it may direct the Assessor to assess any taxable property that has escaped assessment, or to add to the amount, number or quantity of property, when a false or incomplete list has been rendered, and to make and enter new assessments (at the same time cancelling previous entries) when any assessment made by him is deemed by the Board so incomplete as to render doubtful the collection of the tax; but the Clerk must notify all persons interested by letter deposited in the Post Office, postpaid, and addressed to the person interested, at least ten days before action is taken, of the day fixed when the matter will be investigated.

Receipt is acknowledged of your letter of July 23rd, regarding the detour East of Bozeman on U. S. No. 10, by the contractor.

Gallatin County has no objections to the use of County Roads for detour if the contractor puts the road back in the condition it was when he started to use it as a detour. On motion made, seconded and unanimously carried, the following Resolution was adopted:

RESOLUTION

WHEREAS, on the 11th day of July, 1951, a petition was filed with the Board of County Commissioners, County of Gallatin, State of Montana, for the establishment of a fire control district, pursuant to the provisions of Chapter 20, Title 11, Revised Codes of Montana, 1947, said fire control district to be known as "Gallatin Gateway Rural Fire Control District," and said fire control district to include the geographical area described in that petition filed on the above named date and on file and record in the office of Clerk and Recorder, Gallatin County, Montana, and that said petition was signed by owners of 72.9% of the area included within the proposed district, and that on that date a certification of Phil E. Evans, duly elected and acting Assessor of Gallatin County, was filed stating that the petition was examined by himself and that the owners of 72.9% of the area had signed the petition for the proposed fire district, and,

WHEREAS, after duly considering these facts, the Board of County Commissioners made a minute entry in the Commissioners' Journal establishing the Gallatin Gateway Rural Fire Control District, and,

WHEREAS, subsequent to that date C. A. MacKenzie, the duly elected Treasurer of Gallatin County, was instructed by the Board of County Commissioners to collect a tax from all land owners within the Gallatin Gateway Rural Fire Control District, and,

WHEREAS, subsequent to the 11th day of July, 1951, the said Board of County Commissioners discovered that a requirement of the Section 11-2008, R. C. M., 1947, to-wit:

Fire protection--establishment of fire districts--disorganization of fire districts. The board of county commissioners is authorized to establish fire districts in any unincorporated territory, town or village whenever requested in writing so to do by the owners of fifty per cent (50%) or more, of the area included within the proposed district and who constitute a majority of the taxpayers who are freeholders of such territory.

as concerns the underlined portion above was not complied with inasmuch as the persons signing the petition did not constitute a majority of the taxpayers who were freeholders of the said territory, and therefore, that the levy assessment and collection of taxes by the County Assessor and County Treasurer was not made in conformance with the laws of Montana, therefore,

BE IT RESOLVED, That the Gallatin Gateway Rural Fire Control District which was established by order of the Board of County Commissioners, Gallatin County, State of Montana, on the 11th day of July, 1951, is hereby abolished, abandoned, and discontinued for the reason that the requirements that a majority of the taxpayers who are freeholders of the given territory were not petitioners for the establishment of said fire control district, and,

BE IT RESOLVED FURTHER, That the County Assessor be instructed to strike from the assessment rolls any tax levy by virtue of the establishment of this said fire control district, and,

BE IT RESOLVED FURTHER, That the County Treasurer be instructed to strike from the tax notices and tax assessment lists all levy of taxes to be collected by virtue of the establishment of this said fire control district and to collect no further taxes by the virtue of this establishment of this said fire control district, and to refund unto any person, or persons, or corporations, or partnerships that may have paid any tax assessed and collected by virtue of the establishment of this fire control district, and,

BE IT RESOLVED FURTHER, That true and correct copies of this resolution be given to Phil E. Evans, County Assessor of Gallatin County, State of Montana, C. A. MacKenzie, County Treasurer of Gallatin County, State of Montana, Roy Stillman, President of the Gallatin Gateway Rural Fire Control District, and William Broell, Secretary-Treasurer of said Rural Fire Control District, and that the copy given to the said Assessor and Treasurer

Earl Walton,  
County Clerk  
and Recorder

Friday THE 7th DAY OF December 19 51

BOARD OF COUNTY COMMISSIONERS  
GALLATIN COUNTY, MONTANA:

/s/ J. O. E. Nelson, Chairman  
/s/ George L. Stucky  
/s/ C. W. Cramer

On motion made and carried, the Board accepted the following report of viewers:

REPORT OF VIEWERS

By virtue of a Petition filed with the Board of County Commissioners of Gallatin County for the abandonment of the following described public highway situated in the County of Gallatin, State of Montana, more particularly described as follows, to-wit:

Commencing at a point between the south line of Lots No. 340 and 264 of Rainbow Subdivision of Bozeman Hot Springs Tract, Gallatin County Montana, as now on file and recorded in the Office of the County Clerk and Recorder of Gallatin County, Montana;

Thence running North between Lots No. 264, 263, and 262 to the South line of Lot No. 261 which lie on the west side of the road in question, and Lots No. 340, 341, 342, 343, 344, 345, 346, and that portion of Lot 347, which lie on the East side of said Road to the point on Lot 347 which is due East of the South line of Lot No. 261

which Petition was signed by 17 freeholders in the County of Gallatin, State of Montana, and which Petition was filed the 10th day of January, 1952, as Petition No. 603, the Board of County Commissioners of Gallatin County, Montana, by Resolution duly appointed as viewers of the above-described road pursuant to the provisions of Section 32-404, R. C. M., 1947, the following named persons: GEORGE L. STUCKY, member of the Board of County Commissioners of Gallatin County, Montana, and O. I. JACKSON, the duly appointed and duly acting County Surveyor of the County of Gallatin, State of Montana; the said appointees being the persons making this report;

That pursuant to said appointment and said Petition the undersigned viewers on the 9th day of February, 1952, went and observed the above-described road and made the following

REPORT OF VIEWERS (Cont.)

report:

A. The road petitioned to be vacated is situated in what is known as the Rainbow Sub-division of the Bozeman Hot Springs Tract, Gallatin County, Montana, and is a dedicated road surrounded on both sides by farm land owned by one FRANK HALLSTEAD; the said Rainbow Subdivision at the time of the platting was apparently designed with the thought in mind of developing a thickly populated community but this hope has never been completed, and as stated, the road in question is surrounded by farm land owned by FRANK HALLSTEAD.

B. By virtue of other roads in the said subdivision, no person is cut off from any access to the main United States Highway 191 and the road sought to be closed is not a main traveled highway used constantly by any person for access to his home or egress from any particular farm land. The road if closed would not cut off anybody's sole or most convenient road to the main United States Highway.

C. There are no engineering problems that would prohibit the closing of this road.

Dated this 9th day of February, A. D., 1952.

On motion made, seconded and unanimously carried, the following Resolution was adopted:

#### R E S O L U T I O N

WHEREAS, on the 10th day of January, 1952, there was filed with the Board of County Commissioners, Gallatin County, Montana, Petition No. 603 for the abandoning of the following described public highway situated in the County of Gallatin, State of Montana, more particularly described as follows:

Commencing at a point between the south line of Lots No. 340 and 264 of Rainbow Subdivision of Bozeman Hot Springs Tract, Gallatin County, Montana, as now on file and recorded in the Office of the County Clerk and Recorder of Gallatin County, Montana;

Thence running North between Lots No. 264, 263, and 262, to the South line of Lot No. 261 which lie on the west side of the road in question, and Lots No. 340, 341, 342, 343, 344, 345, 346 and that portion of Lot 347, which lie on the East side of said Road to the point on Lot 347 which is due East of the South line of Lot No. 261.

Filed therewith was the certificate of the County Clerk and Recorder and County Assessor of Gallatin County, certifying that the petition contained the names of 17 freeholders of the said Gallatin County, Montana; that on the 9th day of February, 1952, said Board of County Commissioners appointed George L. Stucky, a member of the Board of County Commissioners, and O. I. Jackson, Acting Surveyor for the said Gallatin County, as a Board of Viewers to view the road petitioned to be closed; and that on the 9th day of February, 1952, the Board of Viewers viewed the said road petitioned to be abandoned and filed their report which is on file in the Office of the Clerk and Recorder, Gallatin County, Montana.

Resolution (Continued)

WHEREAS, after the filing of the Board of Viewers' report, the Board of County Commissioners, pursuant to a resolution, notified all adjoining land owners of a hearing to be held on the 6th day of March, 1952, at 10 o'clock A. M. in the Court House, County of Gallatin, State of Montana, in the office of the County Commissioners, and in said notice all adjacent land owners were told that the hearing would be held on the said petition for the abandoning of the above described road and that all persons could be heard at that time; and

WHEREAS, on the 6th day of March, 1952, at 10 o'clock A. M. said Board of County Commissioners heard said hearing upon Petition No. 603 and the following named persons appeared:

Frank E. Hallstead	J. S. Freeman
J. R. Freeman	J. S. Todd
Art Thompson	M. P. LaPalme
Mr. & Mrs. P. D. Davis	Wm. Papke
H. H. Cain	Lewis Kindig

Likewise present were the entire Board of Commissioners, they being J. O. E. Nelson, Chairman, George L. Stucky, and C. W. Cramer; Joseph B. Gary, Deputy County Attorney; and Helen Norwood, who took the proceedings down in shorthand; and

WHEREAS the testimony on behalf of the petitioners showed that the said road petitioned to be closed and as shown on the map on file with said petition ran through property owned solely by one, Frank Hallstead, the principal petitioner, and that testimony of Frank Hallstead stated that the road was only 20' in width, that it is impassable during the winter and spring, and also in the summer because it fills up with water continuously and is not a built up road. Frank Hallstead testified that there were adequate roads to get to any other property that closing this road might cut off, and would require an inconvenience of at most 600' of travel, and

WHEREAS the Board of Viewers report on file related that this road petitioned to be closed was situated in what is known as the Rainbow Subdivision of the Bozeman Hot Springs tract, that the said subdivision was apparently platted with the idea of making a large community, a fact which has never been realized;

WHEREAS testimony of Frank Hallstead and others stated that said Rainbow Tract is principally used for small farming lots and is broken up by these very narrow 20' roads, many of which are closed by fences, without the proper statutory procedure, and are not open to the public, and many of these roads are not necessary to the public use, and

WHEREAS, testimony of Art Thompson, a person purchasing land just northwest of the road petitioned to be closed, showed that the road just directly north of the road petitioned to be closed has been built up and graveled and is a passable road and that the road petitioned to be closed is impassable most of the time and that he never uses said road.

WHEREAS, the testimony of Mr. J. S. Freeman and J. R. Freeman, main objectors, stated that the road petitioned to be closed is necessarily used by the two objectors to travel to tract No. 259 for farming purposes and that to close said road would necessitate them going an additional 1800' when it is necessary to get to this tract. The objectors likewise objected that the road just east of the road petitioned to be closed is too narrow to get machinery down said road. It appearing from the testimony of Mr. H. H. Cain, who owns tract No. 255 in the said Rainbow Subdivision and Mr. Art Thompson, that they are able to get machinery into their property along the road the the objectors Freeman stated they were unable to get machinery in on, and it appearing from the testimony of the Freemans of the location of their home and residence and an examination of all roads in the area reveals that the closing of this road would not be of too great an inconvenience in getting to Tract No. 259, and it appearing from the testimony of all persons appearing at said hearing that the road petitioned to be closed is not of absolute use and necessary to the public, that it is impossible to keep said road up in a proper manner,

THEREFORE, BE IT RESOLVED, That, by reason of the testimony above stated and by reason of an examination of the plat of the entire Rainbow Subdivision and by reason of the information contained in the report of the Board of Viewers, it appears the road petitioned to be closed as described above is not a necessary way for the general public and since it is impassable most of the year, it is hereby ordered closed, vacated, and abandoned.

Dated this 21st day of March, A. D., 1952.

RESOLUTION

WHEREAS, the bridge known as the KINKLE BRIDGE, located approximately two miles east of the Manhattan, Montana, School, and in the northeast quarter (NE $\frac{1}{4}$ ) of the northeast quarter (NE $\frac{1}{4}$ ) of Section Twelve (12), Township One North of Range Three East (T1N R3E), Gallatin County, Montana, has been duly condemned by the Board of County Commissioners; and

WHEREAS, the Board of County Commissioners have previously made their decision to have said bridge removed and another steel bridge already owned by Gallatin County placed in the location of the above-described bridge; and

WHEREAS, original engineering estimates reported that there was only one new abutment needed to be constructed for the erection of the new bridge, but upon further examination of the old abutment planned to be used for the new bridge, it is shown by the engineers that the present remaining abutment is not safe, satisfactory or sufficient to support the new bridge; and

WHEREAS, the bridge and road in question serve a thickly populated area and are necessary for communication; and

WHEREAS, it is of utmost importance that the bridge be constructed as quickly as possible with the least amount of cost and that the Haggerty-Messmer Company, general contractors, who were awarded the bid for the construction alone, excluding materials, of the original abutment upon a low bid of Forty-five Hundred Dollars (\$4500.00) have agreed that the construction cost alone of erecting an additional abutment could be built for Four Thousand Dollars (\$4,000.00) if built in conjunction with the original abutment to be constructed, and materials will cost a total of One thousand five hundred Dollars (\$1,500.00); and

WHEREAS, if additional bids are required to be asked for the construction of the second abutment, the delay will seriously impede the construction in a satisfactory time and will result in a great and continuing inconvenience to the residents of the affected area and will result in valuable loss of time prior to the high-water season and will result in a much higher cost for the construction of the second abutment; and

WHEREAS, due to the great length of time to be lost in the deprivation of the use of the road to the residents of the affected area and the dangers of the high-water season, the Board of County Commissioners believe that an emergency exists under the provisions of Section 16-1907, R.C.M., 1947;

THEREFORE, BE IT RESOLVED By the Board of County Commissioners of the County of Gallatin, State of Montana, in extra session assembled, all members thereof being present and concurring in the deliberations of said Board, as required by law, that the construction of a second abutment for the erection of the new bridge across the West Gallatin River, as described above, constitutes an emergency and that an emergency appropriation from the bridge fund in the amount of Five thousand five hundred Dollars (\$5,500.00) will be necessary to construct said abutment;

BE IT FURTHER RESOLVED That a public hearing be held regarding the question of whether or not an emergency appropriation of Five thousand five hundred Dollars (\$5,500.00) should be made out of the Gallatin County bridge fund for the purpose of construction of a second abutment, and that said hearing shall be held in the Commissioners' Room in the Gallatin County Courthouse on the 31st day of May, 1952, at 10:00 A. M. of said day;

BE IT FURTHER RESOLVED That this Resolution shall serve as notice of said meeting, and shall be published in the manner and form provided by law.

GENERAL COMMENTS

Funds in depository banks are fully protected by pledged securities and Federal Deposit insurance.

Receipts and disbursements were checked and verified.

Minutes are up to date and appear to be complete.

Claims were checked, exceptionally well itemized and audited by the County Auditor. There are some claims however that we wish to call to your attention, such as General Claim No. 1678. This claim was approved for the refund of erroneous taxes and was charged against the General Fund. This should have been charged against all funds in the same proportion as originally credited.

Several Road claims were issued for machinery purchased on rental basis where there was no evidence of bids being called for at the time of the purchase. It was noted that several claims were approved for mileage for officials where trips could have been made by train or bus at less expense to the County. There were no Minutes on the Minute book showing the approval of private cars to be used on any of the trips listed on the claims.

The Taxes Receivable as shown on the books of the County Clerk and Recorder and County Treasurer are not correct. An inventory of Taxes Receivable should be taken and the accounts adjusted to this inventory.

The former Public Administrator has been writing warrants on the Public Administrator's account as late as May, 1952, while his term of office expired December 31, 1950. This is very irregular and if the former administrator wanted to retain any of the estates he had at the expiration of his term he should have petitioned the Court for an order to retain the accounts and then filed his bond in the regular manner. All warrant books were turned over to the present administrator during this examination to stop any more warrants being written.

The Treasurer should collect licenses for butcher, pool tables, bowling alleys and several other businesses requiring County licenses. We refer you to the 1947 Montana Codes Section 84, Chapter 27.

At the time of this examination there was over \$160,000.00 in undistributed taxes. It is suggested that distribution of both personal and automobile taxes be made each month.

The officials and personnel were very courteous and co-operative during this examination. Official bonds are on file, signed and approved. The only exception is bond of the Justice of the Peace at Three Forks which could not be located.

The Secretary of the Fair Board was contacted and suggestions were made regarding the manner in which the records should be kept. The suggestions were very well taken and assurance was given that records would be kept as suggested.

Respectfully submitted,

A. J. Kalberg,  
Deputy State Examiner
