GENERAL COMMENTS

Receipts, disbursements and bank balances were checked and verified. Cash and cash items as well as investments held in trust were verified by direct examination. Funds in the depository bank were amply protected through pledged securities and Federal Deposit Insurance.

Minutes were written up to date, properly signed and approved.

Claims were examined and appear to be in generally good order, properly itemized and signed. We note, however, that Airport Claims No's. 2449 and 2566 for expenses have no receipts attached to substantiate these expenditures. The secretary's signature has not been endorsed on many of these claims to complete filing data, petty claims such as postage and freight have no vouchers attached, and mileage claims show no destination and return; merely showing "two trips 20 miles each" and similar.

We recommend that separate dockets be furnished each of the Justice's of the Peace at West Yellowstone, rather than the two using the same. This docket at present is very incomplete. The Highway docket is incomplete in that only the arresting officers ticket is pasted or fastened in the book, and entries have not been made showing disposition of these cases other than on the Justice report book. All receipts for remittances of fines should be pasted to the Justice report book for highway cases, and in the Justice docket for County and other cases as is being done with Fish and Game receipts.

We require that all Justices keep a copy of the report as submitted to the County Treasurer for auditing purposes.

It is again recommended that personal and automobile tax distribution be made monthly.

Other recommendations as made at the last examination have been complied with.

Bozeman, Montana
November 11, 1953

To the Honorable Board of
County Commissioners of
Gallatin County,
Bozeman, Montana

Gentlemen:

As Acting County Surveyor viewing Roads No. 170, No. 483, and part of No. 214 at the request of the County Commissioners of Gallatin County on November 11th, 1953 we make the following comments:

"Mr. Allen T. Hargrove, myself and Jim Border, Jr. went over the road in Border's jeep. We left the Dry Creek Road and entered on road No. 170, in Section 2 T.2N, R.4E, then on Road No. 483 in Sections 35 and 34, T.3N, R.4E; We note the road has had very little travel on it for approximately one and one half miles; from there on it showed more travel, some of which was farm machinery, as there is a stubble field on the west side of the road in question. Continuing on north across the County road which runs west from Menard, we entered on road No. 214; this also showed very little sign of travel all the way until you get to the Northwest corner of Section 22, T.3N, R.4E.

In regard to fences, referring to the map, there was a gate as you go into Section 35 and as you leave Section 35. The rest of the way fences were down and wire scattered over the ground, except on the North where the road is adjacent to Border's and Durham's land in Section 22.

At no place along this route has there been any County road maintenance for a number of years. There are no bridges or culverts in usable condition, except a stockpass between Sections 2 and 35."

/s/ Allen T. Hargrove
Commissioner

/s/ W. C. Papke
Acting County Surveyor

The hearing on Road Petition #604 was called to order at 10:00 A.M., Saturday, December 12, A.D., 1953. Those present were William E. Durham, Ralph Biggs, Tom and James Veltkamp and J. H. Border, Jr., together with his attorney, Seth Bohart. Commissioners present were George L. Stucky, Chairman, C. W. Cramer, and Allen T. Hargrove.

The following proceedings were had and done, to-wit:

Chairman Stucky read Petition No. 604, giving description of roads to be closed and names of signers; also stated that all petitioners and adjoining land owners had been notified by registered mail.

Mr. Ralph Biggs testified first. His objection was to gates across the road and not having a driveway to take his cattle from one piece of land to another, his land being at opposite ends of this road.

William E. Durham stated that his objection was to the gates across the road.

Seth Bohart, attorney for the J. H. Border Corporation, quoted Part 4 of Sec. 32-302 of Montana Code, 1947, which reads "They" meaning the Board of County Commissioners, must abolish or abandon in the manner provided in this act, such public roads are not necessary for the public's convenience.

Mr. M. M. Benson questioned whether cattle could be driven over this route by Mr. Biggs.

James Veltkamp, who is co-owner of most of the land which the roads in question cross, stated that he felt the neighbors could agree on this even tho the road were closed.

James Border, Jr. stated that he classed the road as a game poachers' trail and a place for the disposal of heads and entrails of cattle and that two or three years ago they had found the remains of a registered calf. This year they were short a calf and they have found no trace of same. Two years ago the head and entrails of a stolen calf were found dumped on the road in question.

Mr. Ralph Biggs verified this statement.

Thomas Veltkamp stated the road cannot be followed on the present County road right-of-way as part of it crosses a swamp. At the present time a car or truck has to go on privately owned land to avoid the swamp. Mr. Biggs verified this statement but that he thought it was all right to go around the swamp.

Mr. Benson asked if conditions should change and these roads were needed whether it would be possible to open the roads in question. Mr. Bohart stated that these roads, or any other roads in the County could be opened if the public demand required the need of such road, or roads. He also stated that under the existing law the County Commissioners could not maintain a private road, and in his mind this road was not used enough by enough people to qualify for public convenience.

James Veltkamp stated that he did not think this road could be classed as a public convenience as it served only the land owners of the district who are already served by two existing roads running east and west; he also again mentioned that Mr. Biggs was welcome to cross his land with his cattle and this should be an agreement between neighbors, and not an obligation of the County.

Commissioner Hargrove asked if the road is to be left open whether the County would be expected to put in the necessary bridges and grade same. It was the opinion of everyone present that they would expect some work on the road if it were to remain a County road. Meeting adjourned at 10:54 A.M.

2. That School District number 69, also known as West Yellowstone District, now has an operating and accredited high school as provided by the Laws of Montana according to statement of the Superintendent of Public Instruction of the State of Montana, a copy of which statement is attached hereto and by reference made a part hereof;
3. That said school district number 69 has been heretofore included within the boundaries of what is known as Gallatin County High School District as heretofore created under resolution dated the 17th day of December, 1934;
4. That it is the desire and request of the Board of Trustees of School District number 69 that school district number 69 be established as a separate high school district to be known as West Yellowstone High School District;
5. That creation of a separate high school district to be known as West Yellowstone High School District to include as its boundaries only the present boundaries of common school district number 69 will not affect the existing boundaries of any other high school district in Gallatin County excepting Gallatin County High School District;
6. That it is to the convenience of the patrons of West Yellowstone High School, because of the travel distance of approximately 90 miles to any other high school in Gallatin County, to have established a separate high school district;
7. That the Board of Trustees of Gallatin County High School District request and approve the creation of West Yellowstone High School District which will only change the boundary lines of Gallatin County High School District by removing common School District number 69.
8. That no objections have been made by any person to the redivision of Gallatin County into High School Districts as requested.

NOW, THEREFORE, upon motion duly made by C. W. Cramer, seconded by Allen T. Hargrove, and unanimously carried,

IT WAS RESOLVED: That Gallatin County be, and it is hereby, divided into six high school districts, consisting of Willow Creek High School District, Three Forks High School District, Manhattan High School District, Belgrade High School District, Gallatin County High School District, and West Yellowstone High School District;

That the boundaries of Willow Creek High School District, Three Forks High School District, Manhattan High School District, and Belgrade High School District, shall be the same boundaries as hereto established by resolution of the Commission of the 17th day of December, 1934;

That each of said High School Districts pursuant to the provisions of Title 75, Chapter 46 of the Revised Codes of Montana, 1947, be created a corporation separate from the common school districts included therein;

That a copy of this resolution be submitted to the Superintendent of Public Instruction of the State of Montana for approval of the boundaries established by the Commission.

I.

The Board of County Commissioners is the County Board of Equalization and must meet on the third Monday of July in each year to examine the assessment books and equalize the assessment of property in the County. It must continue in session for that purpose from time to time until the business of equalization is disposed of, but not later than the second Monday in August.

II.

No assessment as returned by the Assessor shall be lowered, or raised, or any reductions or additions thereto, or changes therein made, except as provided by Sections 84-601 to 86-610, inclusive, Revised Codes of Montana, 1947.

III.

No assessment shall be lowered or reduced unless the party affected thereby or his agent makes and files with the Board on or before the 1st day of August a written application therefor verified by his oath, stating the particular items sought to be lowered or reduced and the facts upon which it is claimed such reduction should be made.

VII.

During the session of the Board of County Commissioners it may direct the Assessor to assess any taxable property that has escaped assessment, or to add to the amount, number or quantity of property, when a false or incomplete list has been rendered, and to make and enter new assessments (at the same time cancelling previous entries) when any assessment made by him is deemed by the Board so incomplete as to render doubtful the collection of the tax; but the Clerk must notify all persons interested by letter deposited in the post office, postpaid, and addressed to the person interested, at least ten days before action is taken, of the day fixed when the matter will be investigated.
