SCALE AT GREENWOOD

In 1930 the County Commissioners took the stand not to take care of county scales, and since that time have allowed a group of farmers to use them if they were interested.

The present Board of County Commissioners have no objection to its being removed, with the understanding that the hole is filled, and left in a very good condition.

The Board of Gallatin County Commissioners herewith, and under the above conditions do sell the Greenwood Scale, as is, to Edward E. Guffey of Bozeman, Montana for the sum of \$1.00 in lawful money of the United States.

SCALE AT GREENWOOD

In 1930 the County Commissioners took the stand not to take care of county scales, and since that time have allowed a group of farmers to use them if they were interested.

Greenwood Scale has remained under the supervision of a group headed by Richard Burkenpas. The condition of this scale is such at present that it is dangerous and not in any condition to be used unless repaired.

The present Board of County Commissioners have no objection to its being removed, with the understanding that the hole is filled, and left in a very good condition.

The Board of Gallatin County Commissioners herewith and under the above conditions do sell the Greenwood Scale, as is, to Edward E. Guffey of Bozeman, Montana for the sum of \$1.00 in lawful money of the United States.

Whereas, during the past twelve (12) months there has been a great increase in requests for approaches upon county highways, and;

Whereas, the funds available to Gallatin County for improvements and construction of bridges and purchasing of culvert is limited, and there are insufficient revenues through general tax levies to layout, improve, and maintain bridges and culverts within Gallatin County, and;

Whereas, the cost of improvement and construction of bridges within Gallatin County has become, and will become, an increasing burden on the resources of the Gallatin County Bridge Fund, and;

Whereas, such improvements are a benefit to private parties, and due to the limited amount of funds available to Gallatin County, to the detriment of the general development of the county bridge system and;

Whereas, an encroachment permit must be acquired from the County Commissioners of Gallatin County, State of Montana.

Now, therefore, be it resolved that the Board of County Commissioners of the County of Gallatin, State of Montana, in extra session assembled, all members thereof being present and concurring in the deliberation of said Board that in the future any person who constructs an encroachment or entry upon any county highway within Gallatin County, obtain a permit from the county, and the expenses of such construction must be borne by the person desiring the same to be erected. Encroachment or entryways must be constructed in accordance with the plans and specifications set forth by the Board of County Commissioners of Gallatin County, State of Montana, in the proper form and manner before the said Board shall take any action or consideration in the constructing of encroachments on public ways within the county.

This Resolution shall be in force and effect until further order of this Board.

RESOLUTION FOR EMERGENCY APPROPRIATION

WHEREAS, an emergency exists in that portion of the General Fund, more particularly described as Item 213, County Building Fund, Item R, Insurance Building Care, Etc., in that said fund is so far depleted that moneys are not available to purchase necessary insurance to cover the county buildings and that an additional appropriation of Two Thousand Seven Hundred Ninety-three and 69/100 (\$2,793.69) Dollars is necessary to carry on and provide insurance for the balance of the fiscal year, and that said emergency was unforeseen due to the raise of premiums and the change in terms of policies; and

It is the wish of this Board that you see fit to make use of this information and we feel that Mr. Korslund has gone far enough that in turning this information over to you at this time you will not be discriminating against anyone property owner or group of property owners. You will be doing what we have set out to do under our reclassification and re-evaluation program, and that is - equalize the assessed values of a large group of properties for taxation purposes.

Yours truly,

BOARD OF COUNTY COMMISSIONERS

Upon examination of these signatures with adjacent land owners of the property along County Road No. 86, as described in said petition, we found that there is no necessity for such road since a new road, with gravelled surface has been built in its stead.
