PETITION TO STOP THE CLOSURE OF ONE OF THE BEST

GRAVEL BIKE RIDES IN THE GALLATIN VALLEY

Petition Summary: Private landowners have recently petitioned our Gallatin County Commissioners to give away a 3.5 mile stretch of public road located in the north end of the Gallatin Valley. If they succeed, the public will be forever locked out from using a beautiful country road that has given bikers, horseback riders, motorcyclists and bird lovers a recreational opportunity for over 100 years. Bremer Creek and Dry Creek Roads make one of the prettiest 20 mile gravel bike loops in the Valley. Don't let them take this away!

Questions? Contact Doug Mavor at 585-3711

We the undersigned ask the Gallatin County Commissioners to deny the February 18, 2020 petition to abandon 3.5 miles of county owned road located at Bremer Creek Road.

PLEASE SIGN

Commissioners,
Thank you for your service to our community.
Please receive this message of support to **keep the Bremmer Creek Road open** to the public.
I also support seasonal restrictions of motorized vehicles as needed to prevent resource damage.
Best regards,
Martin Johnson

Subject: [Gallatin County, MT] Public Comment - Road Petition to Abandon a Portio (Sent by Sam Haraldson, samh@samh.net)

Hello Gallatin County Commissioners,

Sam Haraldson (samh@samh.net) has sent you a message via your contact form (<https://gallatincomt.virtuالتownhall.net/user/233/contact>) at Gallatin County, MT.

If you don't want to receive such e-mails, you can change your settings at <https://gallatincomt.virtuالتownhall.net/user/233/edit>.

Message:

Dear Commission,

I am writing to add public comment regarding the petition to abandon a portion of Bremer Creek Rd. I would like to voice my agreement with the Commission's statement that, "due to recreational, scenic, and regular public use of the road, it is our finding and recommendation that abandoning Bremer Creek Road is not in the best interest of the public and should be denied."

I have a personal relationship with this road as it is part of a bicycle route with a nearly decade long history of ridership. In 2012 a friend spent the summer researching and planning a 50+ mile all gravel bicycle route that now sees dozens of riders every year. The name of the route is the Morganzo 55 which is derived in part by the Morgan family name.

A yearly informal gathering of folks typically in August all ride the route has been taking place every year since 2012 and people have come to find it is one of the 'classic' SW Montana routes to enjoy both by locals and visitors from far and

wide. The logo we've created for the route is a combination of a snake and a bear because every year we hear stories of folks seeing bears on their ride as they climb the Bremer Creek Road section.

I wholeheartedly request the Commission reject the petition to abandon this road. Bicycle traffic in Spring and Winter does not cause damage anywhere near those of vehicles and given the route's legacy as popular bicycle destination solid proof exists the road is well used and loved and therefore should not be taken out of the County's inventory.

Sincerely,
Sam Haraldson
Bozeman, MT

Subject: [Gallatin County, MT] Bremer Creek Rd Abd Petition (Sent by MIKE UNRUH, munruh@boyneresorts.com)

Hello Gallatin County Commissioners,

MIKE UNRUH (munruh@boyneresorts.com) has sent you a message via your contact form (<https://gallatincomt.virtualltownhall.net/user/233/contact>) at Gallatin County, MT.

If you don't want to receive such e-mails, you can change your settings at <https://gallatincomt.virtualltownhall.net/user/233/edit>.

Message:

Dear Commissioners:

I am writing to ask that you deny the request to close or sell the 3.4 mile stretch of Bremer Creek Rd. as requested by adjacent landowners.

It is disappointing that the actions of the few can affect the many as it relates to our public roadways and lands. Yes, I am referencing both individuals that use the road improperly as well as the adjacent land owners who seek to have the road solely for their private use. Surely, there are better solutions to be found.

The situation on Bremer Creek Rd is no different from many "primitive" roads in the County. A similar example that comes to mind is Axtell Anceney Rd which sits west of Gallatin Gateway and connects to Norris Hwy. Conditions and surface materials along the road, and improper use of the road during wet conditions, can and do make this road impassable at times. There are many others. Setting this precedent would be a loss for the resident of Gallatin County as well as visitors to our area.

Bremer Creek Rd. is a valuable public asset as are the other many similar roads to it. These roadways provide transportation routes for all means and purpose of travel. They are used to access private lands, to conduct agricultural business activities, to connect small rural towns and other transportation routes, to allow for travel between access points of public lands, to provide emergency services such as fire and EMS, and to allow citizens the ability to enjoy the great joy of seeing our varied terrain and lands of SW Montana.

I and my wife personally enjoy Bremer Creek on a bikes. My wife and I have most recently rode it on 8/15/20. More than 2 wks later the outing is still providing conversation around the memories created while riding this PUBLIC ROAD. Many others use the road similarly. This includes county residents and visitors.

I hope we can find other solutions and collaborative ideas to the remedy the concerns of the adjacent land owners in place of taking the easy option of just selling or closing the road.

Thank for the opportunity to be heard.

Sincerely,
Mike Unruh
230 North Low Bench Rd.

Hello Gallatin County Commissioners,

Paul House (pablocasa7@gmail.com) has sent you a message via your contact form (<https://gallatincomt.virtualtownhall.net/user/233/contact>) at Gallatin County, MT.

If you don't want to receive such e-mails, you can change your settings at <https://gallatincomt.virtualtownhall.net/user/233/edit>.

Message:

Hello, I wish to submit my comments on the issue of Bremer Cr Road being potentially closed. I am in opposition to this motion because I feel like there is a better solution. Since it seems that the problem season is spring when there is mud and therefore mud bogging, I would support a trial period of a few years when the road was more forcibly closed to non resident or emergency travel.

If that didn't work then road improvements would be my next desire. I have used that road for nearly 50 years and enjoy being able to make the loop to Dry Creek both by bicycle and car, so I strongly support whatever it takes to keep it open.

I would however be open to have it open to bicyclists and pedestrians only, but it needs to be accessible by at least those modes of transportation.

Thank you for your time and consideration.
Paul House

Message:

I often run on Rocky Mountain Road, Morgan Lane, Skinner Road, and Bremer Road due to the beautiful views, the light to non-existent traffic, and road conditions (that they aren't asphalt). I agree the mud boggers can completely destroy a dirt road during the wet shoulder seasons and that the landowners have every right to be irate. It shows complete lack of regard and respect for landowners, the environment, and other users of the road. I would hate to see the road completely closed to the public. I'm pretty sure my foot traffic is minimal impact, and I would never run out there when it was wet anyway.

Perhaps gating the road until it is dry would be a better option? Unless the boggers would drive around the gate and destroy the fields even further. I sympathize with the landowners. However, I'd like to see if a gate works as a solution before closing the road completely.

Semerad, Eric

Hello Gallatin County Commissioners,

Jerry Coffey (coffey@montana.edu) has sent you a message via your contact form (<https://gallatincomt.virtuالتownhall.net/user/233/contact>) at Gallatin County, MT.

If you don't want to receive such e-mails, you can change your settings at <https://gallatincomt.virtuالتownhall.net/user/233/edit>.

Message:

I am opposed to abandoning the Bremmer Creek Road and moving it into private hands. I organize a Ringling/Maudlow ride each Fall that typically goes over the Bremmer Creek Road and ends at the bottom at the Dry Creek road. Usually up to 50 riders have participated. I have often cycled the Bremmer Creek Road myself and connected to the Rocky Mountain Road and on to Bozeman, a route not possible without Bremmer Creek Road. Bremmer Creek Road goes through a beautiful part of the Valley and it would be tragic to lose public access.

Thank you for considering my remarks.

Jerry Coffey

Subject: Bremer Creek Road

Dear Honorable Gallatin County Commissioners:

I urge you to reject the request to abandon the Bremer Creek Road.

I utilize this road for recreational bicycling every year. Some years I will ride this road two and three round trips to Maudlow. Sometimes I make a loop with Dry Creek Road and Bremer Creek Road.

Please reject the request to abandon this road.

Sincerely,

Noah Poritz

Subject: PUBLIC COMMENT: Petition to Abandon a Portion of Bremer Creek Road (Petition No.853)

Dear Commissioners,

I'm writing to encourage you (1) to deny the petition to abandon the subject 3.4-mile stretch of Bremer Creek Road and (2) if you do implement a seasonal closure, make it as narrow as possible to achieve the goal of preventing mud bogging.

I believe that this stretch of road is very valuable to people in the area who ride bikes. I'm aware of an annual Gallatin Valley Bike Club event that includes this stretch of road as well as an informal "race" that includes it (www.morganzo55.com). I'm also aware of people riding bikes out there independent of any event. Bikes designed for gravel/dirt roads have become very popular.

As for the scope of a seasonal closure, it would seem that springtime thaw is the critical period. It would also seem that on-road vehicles are the primary problem. Perhaps the road could remain open to people riding bikes, people on horses, and snowmobiles when it is snow-covered. Fat-tire bikes have become popular for over-snow riding. Further, non-motorized use is significantly more difficult in mud or slush, and so non-motorized users will likely self-select not to use during these conditions (and so need not be seasonally restricted).

Thank you for your service to the community and for your consideration.

To: Commission <Commission@gallatin.mt.gov>
Subject: Bremer Creek Road

Dear Commission members,

I understand there is a proposal to close the Bremer Creek Road to public use. I'm writing to ask that you please keep the road open. My family and I have for many years enjoyed that road. We walk it, but more often we ride our bikes on that road. I have also benefitted from many organized group bike rides that incorporate the road. It's a wonderfully scenic part of the valley and a great way for us city dwellers to get out and re-connect with farm country.

I understand that mud bloggers sometimes use the road in the spring and cause a lot of damage. I've seen this many times. Is there a way the county can control that type of use, maybe with seasonal closures, so that the road can still be enjoyed by the rest of us? I'd hate for the irresponsible actions of a handful of people result in a loss to the rest of us.

Thank you for your time and consideration.

Ray Rasker

Hello Gallatin County Commissioners,

Jeff Wyatt (jeff@pinionengineering.com) has sent you a message via your contact form (<https://gallatincomt.virtuالتownhall.net/user/233/contact>) at Gallatin County, MT.

If you don't want to receive such e-mails, you can change your settings at <https://gallatincomt.virtuالتownhall.net/user/233/edit>.

Message:

Hello Gallatin County Commissioners,

It was only yesterday I learned of the potential closing of Bremmer Creek Road to the public. While I have read their reasoning, I am opposed to closing public access to this road. Once closed, these types of access points, byways and public right-of-ways are gone forever. As a Montanan, I enjoy this access and make use of it in a responsible, respectful way. I love the outdoors and all it has to offer. Losing access is at an all time high and I am saddened and upset at the potential of Bremmer Creek Road being closed.

Bremmer Creek Road is a wonderful, meandering road that connects several roads, including access to the northern section of Rocky Mountain Road. It provides a scenic, less traveled loop that I enjoy several times a year via bicycle and auto.

Please keep this road open for all our citizens to enjoy.

Sincerely,
Jeff Wyatt

Message:

I am writing to ask that you deny the request to close or sell the 3.4 mile stretch of Bremer Creek Road as requested by adjacent landowners.

Bremer Creek road is a valuable public asset. I personally enjoy the beauty of area as well as a means of recreation and exercise on a bicycle. The roads are quite and safe from traffic. I am sorry to learn that the actions of a few cause the majority to potentially lose access to this unique MT roadway.

I hope a collaborative solution can be found to allow public use of this road, when appropriate and safe. Thank you for allowing the public to voice their concerns regarding this issue.

Sincerely,
Jennifer Yaeso

I wanted to write to you about how I use and value access to Bremer Road. As a cyclist, this is one of my favorite roads to ride on. My use is limited, generally from April or May until June or July; after it is dry and before it gets too hot. Bremer road provides a useful connection for making loops. I enjoy riding my bike in the area because of the limited vehicle traffic.

Message:

Please do not allow a few landowners to take away public access by bicycle from Bremmer Creek Road. I pedal this road quite often on a bicycle, and have done so for more than 20 years. Without access to this road there is no "Maudlow Loop" via Rocky Mountain Road, and bicycling to this area becomes an out and back ride on Dry Creek Road. Gravel riding is a fast growing segment in the bicycle industry. I have seen Bremer Creek Road in bad shape in the Spring with very deep ruts, making it impassable to most cars and off road vehicles. During this time, just temporarily close it off to motorized use.

Even with the worst ruts, it's perfect on a gravel bike.

Message:

As noted by the Viewing Committee, Bremer Road has been important to the residents of Gallatin County for more than 100 years, and it is very important to the cycling community as one of a handful of roads allowing us get a healthy workout with minimal vehicular traffic. Specifically, Bremmer Road allows us to connect Dry Creek Road to Rocky Mountain Road, making for a quiet scenic loop.

Forswall Road is an example of a road that is closed to "non-emergency vehicles" due to it being impassable when wet. However, if a bicycle is a "vehicle", then strictly speaking it is closed to bicycles also. It would be far preferable for the wording to be "closed to non-emergency motorized vehicles". This would allow for non-motorized access.

A bicycle or other human-powered vehicle is simply incapable of passing through when the road surface is muddy and so any risk of significant damage to the road is mitigated. However, there are times in the spring and autumn when roads are unsuitable for motorized vehicles but quite suitable for bicycles, hand cycles, and related forms of human-powered recreation.

Hyalite Canyon is an example of a road where, for many years, during spring breakup the road is closed to motorized travel to preserve the road surface, but open to non-motorized travel.

There are a number of other "impassable when wet" roads in the county which are prized by cyclists as a way to recreate away from vehicle traffic. For example, River Rd south of Norris Rd and Johnson Rd east of Gooch Hill Rd. Losing Bremer Rd would set a terrible precedent.

Message:

Hi Joe, Scott, and Don,

I hope you are well. Please do Not abandon Bremer Creek Rd. I enjoy biking and running on that road regularly. Additionally, I help to organize an annual bike ride and its course uses Bremer Crk Rd . It is a nice community event and one of the best parts of the ride is the climb up Bremer Creek Rd (<http://www.morganzo55.com/>). I was delighted to see a bear on that road a couple years ago while riding my bike. I think prohibiting motorized vehicles on it during mud season is a fine solution to the problem of road damage. Abandoning it is unfair to the people of Gallatin County. I hope you will vote in favor of Not abandoning Bremer Creek Rd. Thank you for your service to the community.

Sincerely,

RE: Petition to Abandon a portion of Bremer Creek Road
Public Hearing - September 1, 2020

Dear Commissioners:

Please consider my comments as part of the record for the Public Hearing scheduled on September 1, 2020. I am respectfully stating my opposition to the request to abandon any portion of Bremer Creek Road. I agree that, while not heavily used, this road is regularly used as a public road and should continue as such. Winter and Spring usage seems a reasonable time to temporarily limit access during that time of year as suggested by the Viewing Committee due to muddy conditions.

The road is in good shape by the time we travel on it each summer. It is great for walking and for mountain bike use. The fencing is also well placed and clearly marked so it's easy to stay off the private property. Every year, we look forward to our family outing to harvest the chokecherries that grow right alongside this road in the later summer months/early fall.

Please consider our request to keep Bremer Creek Road open for everyone. So many of us live in town with no property of our own. Bremer Creek is one of those nearby places that would be sorely missed by me and my family.

Thank you for your consideration,

Susan Caldwell

If you don't want to receive such e-mails, you can change your settings at <https://gallatincomt.virtuالتownhall.net/user/233/edit>.

Message:

I would like to offer my concern regarding the potential closer of Bremer Creek Road. This road is crucial to the public for accessing this part of Montana, which is already very hard to access due to private property blocking access to checker boarded public land.

I understand that adjacent landowners dislike the mud bogging that happens during the spring and I support measures to help mitigate this destruction of a public road by a SMALL cohort of the public.

Many people use this road to ride bikes during the summer (when it is dry) or use it as a through road to access other biking loops father north. Please do not close the road for means of travel that aren't destructive to the road. The adjacent land owners drive ranch trucks on it all the time, so nothing the public uses, except the mud bidders, is more destructive than what they use.

When making the decision to close this road, please consider the access issues we have in Montana regarding checker boarded land, and please consider the existing public use of this road. I hope you decide on a solution that will help protect the road and also the use of public land.

Message:

I oppose the county abandonment of the county easement on bremer creek road.

I fully understand the landowners concerns with the public use of this road, however abandonment of the easement is not the right solution. I would fully support a seasonal gated closure of the road to motorized traffic (with the adjoining landowner exempted) to reduce the misuse of the road. I have used this road for years as part of long bike rides and it important for being able to put together long loops on quiet roads which are getting hard to find.

Charles DeTar (cfd@fohn.org) has sent you a message via your contact form (<https://gallatincomt.virtuالتownhall.net/user/233/contact>) at Gallatin County, MT.

If you don't want to receive such e-mails, you can change your settings at <https://gallatincomt.virtuالتownhall.net/user/233/edit>.

Message:

I'm writing to encourage you to deny the petition to abandon Bremer Creek Road as proposed by landowners adjacent to the road.

I'm a member of the sizable long-distance running community in Gallatin County. I frequently utilize Bremer Creek road for long runs. During colder months, I run in this area approximately once per month, often running with other long distance running enthusiasts in Bozeman. As a low-traffic road, it provides a safer and more pleasant alternative to Dry Creek and Rocky Mountain roads, which frequently have large truck traffic servicing area ranches and farms.

Bremer Creek Road is especially valuable to runners like me during shoulder seasons when the ground is frozen, snowpack is light in lower elevations, but higher elevation snowpack makes Bridger Mountain trails or high-altitude roads like Flathead Pass impassable. I support closure of this road to non-emergency vehicles during snow and break-up seasons, but only if it remains open to pedestrian use. Closure to pedestrians during cold shoulder seasons would harm the greatest benefit this road has for the running community that uses it.

As a side note: I'd encourage the commission to make materials relevant to decisions, such as the public petition to abandon this road and the investigation of feasibility, available online before the deadline for public comments. It's only

through dogged efforts of concerned users of this road with connections to the commission that I was able to learn about the details of this proposal.

Hello Gallatin County Commissioners,

Bennett Ford (bennettcford@gmail.com) has sent you a message via your contact form (<https://gallatincomt.virtuالتownhall.net/user/233/contact>) at Gallatin County, MT.

If you don't want to receive such e-mails, you can change your settings at <https://gallatincomt.virtuالتownhall.net/user/233/edit>.

Message:

Hello,

On Thursday, August 27th you'll be ruling on a petition to close Bremer Creek Road to the public.

As a cyclist who routinely utilizes Bremer Creek Road I'm writing to wholeheartedly support the recommendation of County Commissioner Skinner on August 7th, 2020.

Keeping Bremer Creek Road open to the public and limiting traffic during winter/spring break up seasons is a fair compromise that is in the best interest of the public of Gallatin Valley, and more specifically the many cyclists and other recreational users who routinely utilize that road in the summer months.

While the landowners are correct that the road itself does not permit access to public land, they are missing that fact that when dry and passable the road itself is a key attraction to cyclists who utilize it to come and go from Dry Creek and points beyond.

Best,

Ben Ford
Bozeman, MT.

Subject: Bremmer Creek Road

8/27/20

Gallatin County Commissioners,

I concur with the county recommendation to close Bremmer Creek Road during the winter wet and Spring breakup seasons. Two seasonal gates may be required.

An additional closure should be studied, one during rifle season, as all the land along Bremmer Creek is private. Poaching and trespass issues are a serious infraction. Hunters and others may use the road simply to connect through, and that is why this matter needs more study.

However I wish to make a significant modification to any recommended closure. Bremmer Creek Road is a prominent bicycle route. The closure should be for motor vehicles only. Bicycles may be appropriate at times during closure periods. Fatbikes might be able to navigate Bremmer Creek Road during extremely cold or icy conditions. Bicycles cannot cause the damage issues attributed to motor vehicles, due to the nature of bicycle's light weight and human power, or electrically assisted fractional horsepower on some models.

Greg Beardslee

Message:

Dear Commissioners,

I was shocked to hear about this road potentially being closed to the public.

We bike (bicycle) this road many times a year and its closure would mean not being able to do many 'loop' rides in the area. These local country roads are very important to cyclists as they are free from traffic and safer to ride.

Our bike club also runs annual events that include this road, attended by many local riders and it would be sad to no longer hold these events. So please keep this road open!

What is also troubling is that closures of this nature can simply not be noticed by the public and if it wasn't for some vigilant local folks, we might not have known about this proposal - as we didn't until today. Furthermore, the landowners recognize this so often get away with their actions being approved as public response was minimal due to lack of knowledge. I am sure there are many more people in our community that do not know about this potential closure yet and will be very upset if the road does get closed.

Again, please keep this road open to the public.

Yours sincerely,

Jeremy Gay
Lisa Rew

Message:

Commissioners,

My name is Blake Bjornson and I own and live in my condo at 202 Pioneer Dr., Apt 41 in Bozeman.

I understand the landowners near Bremmer Ck Rd are frustrated with the "boggers" and I can't blame them. The photos they submitted certainly show that something needs to be done to protect OUR road. Privatizing the road and shutting off access to the people is NOT the solution.

As an avid gravel rider (pedal bike), I have had the fortune of enjoying that fine ribbon of dirt through this beautiful valley. It's one of the many reasons that I love living here. Please protect our valuable outdoor recreational resources.

A better solution may be to seasonally gate the road so that the boggers stay out.

Thank you for your consideration,
Blake Bjornson

Subject: [Gallatin County, MT] Bremer Creek Road Access (Sent by Sean McGrath, seanxcrunski@gmail.com)

Hello Gallatin County Commissioners,

Sean McGrath (seanxcrunski@gmail.com) has sent you a message via your contact form (<https://gallatincomt.virtualtownhall.net/user/233/contact>) at Gallatin County, MT.

If you don't want to receive such e-mails, you can change your settings at <https://gallatincomt.virtualtownhall.net/user/233/edit>.

Message:

Hello Commissioners,

My name is Sean McGrath. I am personally interested in the issue of access to Bremer Creek Road being decided on Tuesday, September 1st. I am related to one of the land owners bordering this road. Simply put, if access is to be allowed on this road, then it should fall on Gallatin County to maintain it, not only better but more frequently. The "Primitive Road" sign at the intersection of Bremer Creek and Dry Creek Roads is not enough to deter use by vehicles during the "impassible when wet" times of the year. This sign in my opinion, is indirectly stating that the county chooses not to maintain the road to an extent that it should be safely usable at all times of the year. If this is the case and continues, then seasonal public vehicle restrictions should be placed on Bremer Creek Road. The "Primitive Road" sign more than likely increases use based on unintentionally promoting recreational vehicular use, particularly, mud bogging and such. It is this vehicular recreational use that causes increased stress, damage and speeds on this road. Just this past year, vehicles have gotten stuck and fence line property damage took place. If Gallatin County and its tax payers choose to increase frequency and better the maintenance of Bremer Creek road, then by all means keep the access year round. If no change in maintenance policy takes place, then I am for abandonment of Bremer Creek road all together by Gallatin

County, and therefore ask that Bremer Creek road be converted to a private access road only. In conclusion, maintenance of Bremer Creek road is the issue, and that falls on Gallatin County to do a better and more frequent job. Either do a better job of maintaining Bremer Creek Road year round or completely restrict its public use seasonally or abandon it.

Sincerely,
Sean McGrath

Message:

Gentlemen

I read that Bremer Road near Maudlow could be closed. And offer comment relative to this road AND other similar roads..

As a citizen, recreationist and MSU plant ecologist I use backroads for fun and study. Those in the north part of the country, eg Nixon road and Bremer Road, are both rich and miserable out of season. Similar roads include the 'Summer Cutoff Road (old-days)' near the Comona Crossing north of Riverside Country Club and 'isn't it named the Anceny Road' northwest of Four Corners.

I encourage you to maintain such public roads and to close them to motorized travel in muddy-snowy seasons when use is abuse, ie whenever even the shallowest of tracks are being left. I see no harm in leaving them open year-around to walking, skiing, and even biking during seasons of closure.

The USFS manages some of its 'back-country' roads similarly, sometimes enforcing rest with locked barriers.

T Weaver

Message:

Hi Commissioners - I just read the Bozeman Chronicle article about Bremmer Road. Please do not abandon that road. But I do agree that perhaps a springtime closure to motorized vehicles would be wise. As the article stated, I have seen cars stuck in muddy ruts for days. A springtime closure to motorized vehicles would also reduce the amount of money and time the County has to spend maintaining that road.

Thanks for your consideration.

Jane

Message:

I am writing to voice my feeling to NOT CLOSE Bremer Creek Rd to the public.

I have mountain biked that road as a loop for many years. It is a great short connector making long bike loops possible. Yes I totally agree that maintenance and use of Bremer Cr Rd is a challenge & a problem. This past spring my wife and I made a long loop on bicycles twice while using Bremer Cr Rd to connect. I saw an SUV mired/bogged and buried in the mud at the jct with Rocky Mtn Rd & Bremer. That vehicle was in the middle of the road buried to it's axles & was there for several days. It is those types of users ('mud bidders') that create a bad name for other sensible/common sense users. It is the mud bidders that really destroy road bases. There are other roads in the county that are signed '...impassible with wet/muddy..!'

As far as I've seen those roads have not been on the 'open' chopping block.

The mega-mansion home owners are no more privileged than the rest of us to use county back roads. Skinner Road is another road that makes for great bike loops AND the mud bidders are causing resource and road damage on that road. The 4x crowd are the ones making the rest of us low impact users suffer.

PLEASE DO NOT CLOSE BREMER CREEK ROAD.

Message:

Gentlemen, I would briefly like to state that my wife and I support one or more seasonal closures* to non-emergency, motorized vehicle use on Bremer Creek Road when environmental conditions place the road surface at moderate-high risk of degradation from vehicle use. In select emergencies, it might also be acceptable for local landowners to use portions of this road during closure periods to protect/manage time-sensitive issues on their property (hopefully they would be as careful as possible when using the road during closure periods to keep impacts to the road surface to a minimum).

Seasonal road closures are not new in Montana, as such closures are common on access roads to public lands and weight limits during spring thaw on select paved roadways. During closures the public should be able to continue to use the road for recreational uses, such a hiking and biking. Hopefully such an approach will lessen costs to the County road maintenance program and continue to allow for public access to this rural and beautiful part of the county. Thank-you in advance for considering my thoughts.

*Ideally closures would be based on road conditions and not fixed dates (i.e., as warranted), however, if this proves challenging for the road department and public education, then fixed dates seem like a reasonable approach.

Message:

Dear Commissioners,
Please do not close the Bremer Cr. Rd. near Maudlow. That road offers superb recreation in the form of a critical leg of a very scenic bicycle loop, and also offers excellent birding opportunities. It is such a beautiful valley, we really enjoy biking there and stopping for birding breaks. My family would be very sad to lose this opportunity for quality family recreation time in a safe setting away from fast vehicles and the coronavirus. Thank you for considering this request.

Subject:

Gallatin County Commissioners,

I am not one of the landowners who petitioned for the closure of Bremer Creek Road. My family does ranch north of Bremer Creek Road.

The problems, as I understand it, are with people who drive this road to trespass and poach on private land, the people who go out on this road to party and leave beer cans and other litter behind, and the people who ignore the "impassable when wet" signs and create huge ruts in the road. The people who want to walk on the road for birding or exercise, or the mountain bikers and horse owners who want a backroad experience, are not causing the problems forcing landowners to request closure of this road. I am wondering if a compromise solution would be to have a very narrow gate for the mountain biker, birder, walkers, and horseback riders, to access the road on each end next to a locked gate for the landowners. There is no state land on Bremer Creek Road so this would not deny the public access to state land. There is an alternate route in Dry Creek Road so this would not restrict travel to Maudlow and Ringling.

There is precedent for this solution. Hyalite Road is closed to vehicles and open to non-vehicle traffic only each spring when the road is extremely wet which is often the case with Bremer Creek Road. The ruts created by "mud-boggers" and others who attempt Bremer Creek Road when it is wet, create long-term problems with drainage and safe passage for those who need to drive the road to access their land and cattle.

I hope you will consider this comment when making a final decision on the petition to close Bremer Creek Road. I am uncertain about attending the public hearing due to coronavirus concerns.

Message:

Please do not enclose this important passageway. I do not blame Wade Morgan and others for being frustrated that motorized users make a mess of this road when it is wet---closure to motorized users would not break my heart, because some people do abuse their right to drive on that road by doing so when conditions are lousy. (Bear Creek road suffers similarly). But it seems extremely unfair, counterproductive, and bad PR for the agricultural/landowner community to simply close off a public road completely. This feels very personal to me....as a small-scale rancher at the north end of Springhill Road involved with a diverse operation and no employees, I cherish the rare moments I get to travel off the beaten path, and that road is a place I often explore on foot, XC-skis or sometimes a bike. I'm usually there when no one else is around. My husband is no longer able to get around the way he used to, so my forays are generally limited to short trips so I can't take care of things at home, and I savor even a mundane dirt road if it gets me out of the Bozeman orbit. Yeah, I'd like deeper expeditions into the wilderness, and I do use public lands to get up into the hills when I can, but those opportunities are absurdly rare. The road to Maudlow offers a unique window into the ag/homesteading/geographic transition at this northerly edge of the Gallatin Valley---it serves everyone well, including large landowners, to share this one small passageway in a vast, inaccessible private acreage of the West Bridgers.
